

Volume 104

Advances in GENETICS

Serial Editor

Dhavendra Kumar

University Hospital of Wales, Cardiff, UK

The field of genetics is rapidly evolving, and new medical breakthroughs are occurring as a result of advances in knowledge gained from genetics research. **Advances in Genetics** continually publishes important, timely reviews from leaders in the field that cover a broad range of topics of interest to geneticists and their colleagues in affiliated disciplines. This volume includes articles on:

- Genomic Technologies for Breeding Hevea Rubber
- Association Mapping in Plants in the Post-GWAS Genomics Era

Praise for **Advances in Genetics**:

"Outstanding both in variety and in the quality of its contributions."—NATURE

"Can be highly recommended to geneticists, and biologists in general..."

will prove to be of high importance for the development of the science of genetics."—SCIENCE
