Mastering's interactive, engaging activities are designed to help you actively learn and retain challenging course concepts.

How to Solve Genetics Problems

by Harry Nickla

978-0-321-55693-6 • 0-321-55693-3

A supplement for any genetics textbook, this guide gives you thorough instructions for solving genetics problems. Using callout comments, the author walks you through the process of breaking down word problems by dissecting each sentence. At each significant point in the statement of a problem, you learn to evaluate the given data, think about how it fits into the larger picture, and analyze relationships that lead to a potential solution.
