

NEED HELP STUDYING?

DiscoverBiology.com gives you **free** and **open** access to interactive learning and review materials:

Study with Quiz+ diagnostic quizzes that go beyond just telling you what you got right and wrong. Quiz results show you what you still need to review through an interactive, customized Study Plan.

Get organized with a complete Study Plan for each chapter.

Master new terms with Flashcards and an Audio Glossary.

See how biology is relevant to your life through six applied chapters on topics such as smoking and sustainability.

Animations

Based directly on the figures in the book, dynamic animations for each chapter help you visualize the way biological processes actually work. Many animations include interactive activities so you can test your learning.

Save Money: Buy the Ebook

Or, to save even more money, buy only the chapters you need for your course for just \$2 each (20 minimum). Ask your instructor to create a Chapter Select ebook at **nortonebooks.com**. Norton ebooks retain the content and design of the print book and allow you to highlight and take notes with ease, print chapters as needed, and search the text.
