

From inquiry to discovery . . . explore biology with this current, learner-friendly book!

Studying biology in today's fast-paced environment where new research is cropping up daily is exciting—and also a bit daunting, unless you have the right textbook to help you make sense of it all. Popular with students at colleges nationwide, Solomon, Berg, and Martin's **BIOLOGY** is often described as the best text available for learning biology. The book's in-chapter Learning System is like a built-in study guide, focusing your attention on key learning objectives. Many of the text's beautifully rendered illustrations are correlated with ThomsonNOW™ animated figures online so you can interactively study and reinforce your understanding of complex processes.

Accompanied by study tools that help you excel in this course:

THOMSONNOW™ . . . JUST WHAT YOU NEED TO KNOW NOW! Gives you Personalized Study tools to help you improve your grade! This web-based, diagnostic learning tool saves you time by helping you determine your unique study needs and focusing your study time on just the concepts you need to master. Turn to the inside front cover of this book for details.

STUDY GUIDE BY RONALD DANIEL, SHARON DANIEL, AND RONALD TAYLOR. This exceptional Study Guide, written specifically for Solomon, Berg, and Martin's *Biology* contains many types of questions and a variety of exercises for each chapter in the textbook. **0-495-11415-4**

MOBILE CONTENT RESOURCES Solomon, Berg, and Martin's *Biology* will also be accompanied by a range of "mobile content" resources, including downloadable study skills tips in MP3 format that make it easy for you to study while you work out, walk to class, or whenever it's **convenient** for you!

VIRTUAL BIOLOGY LABORATORY 3.0 With these realistic, interactive simulations, you'll feel like you're in a real laboratory! You'll gather data and perform experiments, change parameters to see what happens, use data to explain concepts, and write up results. The 3.0 version offers an easy-to-use design and great flexibility. To view and purchase available labs, visit www.iChapters.com.
