

IAIN CAMPBELL, a native of Australia, is builder of the Tandayapa Bird Lodge in Ecuador and cofounder of Tropical Birding, which leads bird and wildlife tours around the world. SAM WOODS and NICK LESEBERG are nature guides for Tropical Birding. Campbell and Woods are the authors of *Wildlife of Australia* (Princeton).

"*Birds of Australia* is an excellent book. The text is comprehensive, the content is effectively organized and researched, and the scholarship is sound. The photographic plates are of a very high quality."

—Peter S. Lansley, senior ecologist,
Brett Lane & Associates

Australia is home to a spectacular diversity of birdlife, from parrots and penguins to emus and vibrant passerines. *Birds of Australia* covers all 714 species of resident birds and regularly occurring migrants and features more than 1,100 stunning color photographs, including many photos of subspecies and plumage variations never before seen in a field guide. Detailed facing-page species accounts describe key identification features such as size, plumage, distribution, behavior, and voice. This one-of-a-kind guide also provides extensive habitat descriptions with a large number of accompanying photos. The text relies on the very latest IOC taxonomy and the distribution maps incorporate the most current mapping data, making this the most up-to-date guide to Australian birds.

- Covers all 714 species of resident birds and regularly occurring migrants
- Features more than 1,100 stunning color photos
- Includes facing-page species accounts, habitat descriptions, and distribution maps
- The ideal photographic guide for beginners and seasoned birders alike
