

"*Waterfowl of North America, Europe, and Asia* compiles an impressive amount of information and illustrates an extraordinary number of figures. Reeber should be congratulated for compiling such a deep and rich resource on the subject. This guide is a significant contribution to the ornithological community."

—Jessie Barry, Cornell Laboratory of Ornithology

- A guide to the 84 species of ducks, geese, and swans of Europe, Asia, and North America
- 72 color plates with more than 920 illustrations of most plumages and subspecies, both in flight and standing
- More than 650 color photos
- Details on taxonomy, identification features, determination of age and sex, geographic variations, measurements, voice, molt, hybridization, habitat and life cycle, range and populations, and status in captivity
- 85 distribution maps
- Descriptions and illustrations of more than 100 hybrids regularly encountered in the wild
