

connect[®]

McGraw-Hill Education Connect for Majors Biology NOW INCLUDES:

LEARNSMART PREP[®]

Fueled by LearnSmart[®]—the most widely used and intelligent adaptive learning resource—LearnSmart Prep[®] is designed to get students ready for a forthcoming course by quickly and effectively addressing prerequisite knowledge gaps that may cause problems down the road.

By distinguishing what a student knows from what they don't, and honing in on concepts they are most likely to forget, LearnSmart Prep maintains a continuously adapting learning path individualized for each student, and tailors content to focus on what the student needs to master in order to have a successful start in the new class.

This revolutionary technology is available only from McGraw-Hill Education, and for hundreds of course areas as part of the LearnSmart Advantage series.

SMARTBOOK[®]

Available within McGraw-Hill Connect[®], SmartBook[®] makes study time as productive and efficient as possible by identifying and closing knowledge gaps through a continually adapting reading experience. This ensures that every minute spent with SmartBook is returned to the student as the most value-added minute possible. The result? More confidence, better grades, and greater success.

Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, how they need it, so that your class time is more engaging and effective.
