

Originally authored by F. H. Kortright and later revised by Frank Bellrose, *Ducks, Geese, and Swans of North America* has been hailed as a classic since the first edition was published in 1942. This fully revised and updated edition provides definitive information on the continent's forty-six species, includes maps of both winter and breeding ranges, showcases stunning images by top waterfowl photographers, and retains the acclaimed artwork by Robert W. (Bob) Hines.
