

Now with a new full-color design and art program, the fifth edition of *Strickberger's Evolution* is updated with the latest data and reports from the field. The authors took care to modify the chapter order to provide a more clear and student-friendly presentation of course material.

The original scope and theme of this popular text remains as it continues to present an overview of prevailing evidence and theories about evolution by discussing how the world and its organisms arose and changed over time. New boxed features concentrating on modern and exciting research in the field are included at the end of most chapters.

#### New and Key Features of the Fifth Edition:

- A dynamic new art program and enhanced design adds clarity to the text.
- A more student-friendly and engaging writing style helps students better understand and retain key concepts.
- A reorganized chapter order provides a more clear and accessible presentation of course material.
- Access to the Navigate Companion Website is included with every new print copy of the text.
- New boxed features highlight new and exciting research in the field.
- Instructor's Resources include PowerPoint Lecture Outlines, Power Point Image Bank, Supplementary Problems and Exercises, and a new Test Bank with more than 700 questions.

## NAVIGATE COMPANION WEBSITE

The Navigate Companion Website includes a variety of study aids and learning tools to help students prepare for class and improve their test scores. Correlated to each chapter in the text, the Navigate Companion Website provides the following learning resources:

**Interactive Flashcards**—These interactive flashcards will guide students through the definitions and concepts vital to understanding evolution.

**Crossword Puzzles**—Crosswords provide a fun and engaging way to test students understanding of key terms and concepts.

**Interactive Glossary**—This hands-on glossary allows students to browse all the key terms within *Strickberger's Evolution* in three different ways: by term, alphabetically, or by chapter number.

**Exercises in Evolution**—These exercises allow students to actively explore a topic in greater detail.

**EvoLinks**—This collection of Web links brings the student to interesting and informative websites, assisting in further study and understanding of evolution.

**Study Quizzes**—The Study Quizzes test the student's knowledge of the important concepts in each chapter.
