

Encyclopaedia of Insect Molecular Biology and Biochemistry

Contents and List of Contributors

- Chapter 1 Mimicking Insect Communication: Release and Detection of Pheromone, Biosynthesized By An Alcohol Acetyl Transferase Immobilized in a Microreactor**
Lourdes Mun˜oz, Nikolay Dimov Gerard Carot-Sans, Wojciech P. Bula, Angel Guerrero, Han J. G. E. Gardeniers
- Chapter 2 Sexual Attraction in the Silkworm Moth: Nature of Binding of Bombykol in Pheromone Binding Protein—An Ab Initio Study**
Vojtěch Klusák, Zdeněk Havlas, Lubomír Rulišek, Jiří Vondrášek, Aleš Svatoš,
- Chapter 3 Elephant Albumin: A Multipurpose Pheromone Shuttle**
Josef Lazar, L.E.L. Rasmussen, David R. Greenwood, In-Seok Bang, Glenn D. Prestwich
- Chapter 4 Unexpected Effects of Low Doses of a Neonicotinoid Insecticide on Behavioral Responses to Sex Pheromone in a Pest Insect**
Kaouther K. Rabhi, Kali Esancy, Anouk Voisin, Lucille Crespín, Julie Le Corre, He'le'ne Tricoire-Leignel, Sylvia Anton, Christophe Gadenne
- Chapter 5 Ant Trail Pheromone Biosynthesis is Triggered By A Neuropeptide Hormone**
Man-Yeon Choi, Robert K. Vander Meer
- Chapter 6 Specificity Determinants of the Silkworm Moth Sex Pheromone**
Pingxi Xu, Antony M. Hooper, John A. Pickett, Walter S. Leal
- Chapter 7 Extracellular Modulation of the Silkworm Sex Pheromone Receptor Activity by Cyclic Nucleotides**
Tatsuro Nakagawa, Kazushige Touhara,
- Chapter 8 Can Insects Develop Resistance to Insect Pathogenic Fungi?**
Ivan M. Dubovskiy, Miranda M. A. Whitten, Olga N. Yaroslavl'tseva, Carolyn Greig, Vadim Y. Kryukov, Ekaterina V. Grizanova, Krishnendu Mukherjee, Andreas Vilcinskis, Viktor V. Glupov, Tariq M. Butt
- Chapter 9 The Gene Transformer of Anastrepha Fruit Flies (Diptera, Tephritidae) and Its Evolution in Insects**
María Fernanda Ruiz, Andreina Milano, Marco Salvemini, José María Eirín-López, André L. P. Perondini, Denise Selivon, Catello Polito, Giuseppe Saccone, and Lucas Sánchez
- Chapter 10 Molecular Imprinted Photonic Crystal Hydrogels for the Rapid and Label-Free Detection of Imidacloprid**
Xuan Wanga, Zhongde Mub, Ran Liua, Yuepu Pua, Lihong Yina,
