

A Textbook of Practical Botany

The book emphasized on the details of practical knowledge and reduced the overwhelming number of new terms that usually appear in the text. In place of that, authors substituted more of the process of science. The book emphasis on scientific process involves explaining botany as botany is done. Specifically, author describe the competing hypotheses that botanists have devised to answer questions about botanical phenomena, the experiments done by botanists to test these hypotheses, interpretations of data, and the many unanswered questions and unresolved conflicts that remain. This approach differs significantly from that of merely presenting definitions and the conclusions of experiments.

Dr. M.P. Singh, Head of the Department Forest Sciences, Birsa Agricultural University, Ranchi (Jharkhand) has obtained his master's degree in Botany with specialization in Taxonomy. He has done Ph.D. on "Flora of Patna" from Patna University, Patna and Diploma in Forestry from Forest Research Institute, Indian Council of Forestry Research & Education, Dehradun.

Dr. S.B. Chaudhary is presently University Professor and Head of the Department of Botany, Vinoba Bhave University, Hazaribagh. He is engaged in cytogenetics teaching of about 28 years and actively engaged in research and guided more than ten Ph.D. students.

Dr. H.B. Sahu is presently University Professor in Botany in the Department of Botany, Ranchi University, Ranchi and associated with teaching since 25 years.
