SECTION I

Applying Basic Sciences to Clinical Medicine	1
Approach to Learning Biochemistry	3
Approach to Disease	3
Approach to Reading	3

SECTION II

46 Clinical Cases	7
Cases 1–13 Gene Expression and Protein Synthesis	9
Cases 14–19 Metabolism and ATP	121
Cases 20–29 Carbohydrate Metabolism	165
Cases 30–34 Lipid Metabolism	257
Cases 35–40 Protein Metabolism	297
Cases 41–46 Biochemical Endocrinology	349

SECTION III

Listing of Cases	391
Listing By Case Number	392
Listing By Alphabetical Order	395

INDEX	399
