

Contents

List of contributors	ix
1 Respiration in aquatic ecosystems: history and background	1
<i>Peter J. le B. Williams and Paul A. del Giorgio</i>	
2 Ecophysiology of microbial respiration	18
<i>Gary M. King</i>	
3 Respiration in aquatic photolithotrophs	36
<i>John A. Raven and John Beardall</i>	
4 Respiration in aquatic protists	47
<i>Tom Fenchel</i>	
5 Zooplankton respiration	57
<i>Santiago Hernández-León and Tsutomu Ikeda</i>	
6 Respiration in wetland ecosystems	83
<i>Charlotte L. Roehm</i>	
7 Respiration in lakes	103
<i>Michael L. Pace and Yves T. Prairie</i>	
8 Estuarine respiration: an overview of benthic, pelagic, and whole system respiration	122
<i>Charles S. Hopkins, Jr and Erik M. Smith</i>	
9 Respiration and its measurement in surface marine waters	147
<i>Carol Robinson and Peter J. le B. Williams</i>	
10 Respiration in the mesopelagic and bathypelagic zones of the oceans	181
<i>Javier Arístegui, Susana Agustí, Jack J. Middelburg, and Carlos M. Duarte</i>	
11 Respiration in coastal benthic communities	206
<i>Jack J. Middelburg, Carlos M. Duarte, and Jean-Pierre Gattuso</i>	
12 Suboxic respiration in the oceanic water column	225
<i>Louis A. Codispoti, Tadashi Yoshinari, and Allan H. Devol</i>	
13 Incorporating plankton respiration in models of aquatic ecosystem function	248
<i>Kevin J. Flynn</i>	
14 The global significance of respiration in aquatic ecosystems: from single cells to the biosphere	267
<i>Paul A. del Giorgio and Peter J. le B. Williams</i>
