

CONTENTS

Preface	v
Organizing committee	vi
Symposium VIII	
Biochemistry of photosynthesis	
Pigments and electron transfer components of photosynthetic bacteria <i>J. Ames</i>	3
Protein-protein and protein-lipid interactions and the regulation of electron flow in photosynthesis <i>J. Barber</i>	9
The role of chloride in oxygen evolution <i>W. Coleman and Govindjee</i>	21
The models of photosynthetic electron transfer <i>A.A. Krasnovsky</i>	29
Biosynthesis, assembly, reorganization and properties of the pigment-protein complexes <i>G. Akoyunoglou</i>	35
Basic research on the mode of action of herbicides: diphenyl ethers <i>P. Böger</i>	47
Molecular organization of chlorophyll <i>a</i> in the light-harvesting complex (LHC _{II}) of thylakoids <i>A. Faludi-Daniel, L.A. Mustárdy, J.G. Kiss, Gy.I. Garab and V.V. Shubin</i>	55
Chlorophyll rearrangements at the early steps in the formation of the pigment systems <i>A.A. Shlyk, L.I. Fradkin, V.P. Domanskii and A.G. Samoilenko</i>	61
Symposium IX	
Genome organization	
The mosaic genome of warm blooded vertebrates <i>G. Bernardi, B. Olofsson, J. Filipski, M. Zerial, J. Salinas, G. Cuny, M. Meunier-Rotival and F. Rodier</i>	69
The matrix hypothesis of DNA-directed morphogenesis, protodynamism and growth control <i>K. Scherrer</i>	79
About the significance of AT-rich DNA segments in eukaryotic genome organisation and function <i>K. Scherrer and J. Moreau</i>	105
Attenuation in SV40 functions at late time after infection and it is augmented by agnoprotein <i>N. Hay and Y. Aloni</i>	123
Dynamic structural changes in chromatin upon transcription <i>A. D. Mirzabekov, V.L. Karpov, O.V. Preobrazhenskaya, S.G. Bavykin, S.I. Usachenko, A.I. Lyshanskaya, I.M. Undritsov, V.V. Shick and A.V. Belyavsky</i>	141
Differential expression of the <i>Xenopus</i> vitellogenin multigene family <i>J. R. Tata, W.C. Ng, A.P. Wolffe and J.L. Williams</i>	149

Structural aspects of chromatin replication <i>R. Tsanev</i>	161
Symposium X	
Protein biosynthesis	
Structure and function of bacterial elongation factor EF-Tu <i>B.F.C. Clark, T.F.M. La Cour, K.M. Nielsen, J. Nyborg and S. Thirup</i>	173
Structure function relationship in the tRNA ^{Asp} aspartyl-tRNA synthetase system from yeast <i>J.P. Ebel, P. Dumas, R. Giege, B. Lorber, D. Moras, P. Romby, J.C. Thierry and E. Westhof</i>	183
Amino acid analogs as a tool in elucidation of proofreading mechanisms of aminoacyl-tRNA synthetases <i>S. Englisch, F. von der Haar and F. Cramer</i>	199
Expression of translational initiation factor genes in <i>Escherichia coli</i> <i>M. Grunberg-Manago, J.A. Plumbridge, C. Sacerdot, M. Springer, J.W.B. Hershey, G. Fayat, J.-F. Mayaux and S. Blanquet</i>	205
Investigation of the interaction of tRNA and mRNA with ribosomes by affinity labelling <i>D.G. Knorre</i>	213
Ribosomal collapse triggered by a DNA oligonucleotide <i>E. Henderson and J.A. Lake</i>	219
Optimal accuracy, maximal growth <i>C.G. Kurland, M. Ehrenberg, T. Ruusala, D. Andersson, K. Bohman and P. Jelenc</i>	229
Regulation of ribosome biosynthesis in <i>Escherichia coli</i> <i>M. Nomura</i>	239
Structural dynamics of the ribosome <i>A.S. Spirin, V.D. Vasiliev and I.N. Serdyuk</i>	249
Symposium XI	
Bioenergetics	
Mechanism of ATP synthase (F ₀ F ₁) studied by reconstitution <i>Y. Kagawa, N. Sone and M. Yoshida</i>	259
Membrane proteins as light energy transducers <i>Yu.A. Ovchinnikov</i>	265
The electrogenic Na ⁺ , D-glucose cotransporter: isolation and first insight in its mode of function <i>G. Semenza</i>	279
Kinetics of ATP synthesis/hydrolysis by the mitochondrial ATP-synthase complex <i>A.D. Vinogradov, E.A. Vasilyeva and O.A. Evtushenko</i>	291
Controlling mechanisms in mitochondrial respiration <i>L. Wojtczak, K. Bogucka, J. Duszyński, M. Puka and A. Zólkiewska</i>	301
The sodium transport decarboxylases <i>P. Dimroth</i>	307
Direct and indirect interaction between primary and secondary transport in bacteria <i>M.G.L. Elferink, J.M. van Dijl, K.J. Hellingwerf and W.N. Konings</i>	315
The protonmotive activity of the cytochrome system: vectoriality and co-operativity <i>S. Papa, M. Lorusso, F. Guerrieri, D. Gatti and D. Boffoli</i>	323

The respiration-coupled Na ⁺ pump in <i>Vibrio alginolyticus</i> : Na ⁺ translocation at NADH-quinone oxidoreductase segment <i>H. Tokuda</i>	331
Symposium XII	
Molecular and enzymatic bases of carcinogenesis	
Proto-oncogene related and retroviral related sequences in a human genome <i>L.L. Kisselev</i>	343
Altered and cryptic proviral sequences in mammalian tumour cell lines and characterization of rescued ASVs <i>J. Svoboda, J. Geryk, V. Lhoták and J. Pichrtová</i>	353
Structural basis of interrelation of molecular mechanisms of cancerogenesis and immunity <i>V.P. Zav'yalov</i>	361
Symposium XIII	
Ionic channels and cellular metabolism	
Intracellular regulation of ionic currents through chemoexcitable neurone membrane <i>N.K. Chemeris and V.I. Iljin</i>	373
The bovine cardiac muscle binding sites for calcium-antagonists <i>P. Ruth, V. Flockerzi, E.v. Nettelbladt and F. Hofmann</i>	379
Effects of cAMP or catalytic subunit of protein kinase on cardiac calcium channels <i>W. Trautwein, G. Brum and W. Osterrieder</i>	385
Adenylate cyclase and guanylate cyclase in the excitable ciliary membrane from <i>Paramecium</i> <i>S. Klumpp, D. Gierlich and J.E. Schultz</i>	391
Cell metabolism controls neuron ionic channels <i>E.A. Liberman and S.V. Minina</i>	397
Activation of single neuronal calcium channels <i>H.D. Lux and A.M. Brown</i>	407
Symposium XIV	
Structure and function of peptides and proteins	
Structural and functional organization of peptide and protein ligands <i>G. Chipens</i>	417
Scorpion toxins: a structure-activity relationship study related both to neurotoxic and antigenic properties of these toxins <i>H. Darbon, F. Sampieri, M.El. Ayeb and H. Rochat</i>	423
Genes for proton translocating ATPases <i>J.E. Walker, V.L.J. Tybulewicz, G. Falk, N.J. Gay and A. Hampe</i>	431
A contribution to the chemical protein synthesis as exemplified by human proinsulin <i>V.K. Naithani, H.G. Gattner and H. Zahn</i>	443
Structure-conformation-activity relationship of the Bradykinin potentiating peptide BPP _{9α} <i>S. Reissmann, M.P. Filatova, N.A. Krit, T.A. Aleksandrova, E. Birckner, M. Friedrich, I. Fric, I. Paegelow, W.-E. Siems, G. Heder and H. Arold</i>	449

Activity profiles of conformationally restricted opioid peptide analogs <i>P.W. Schiller, J. Dimaio and T.M.-D. Nguyen</i>	457
NMR of gramicidin A double helices <i>V. Bystrov and A. Arseniev</i>	463
Symposium XV	
Membrane organization and function	
Use of lipid-specific probes in membrane research. An alternative way of biological signal amplification <i>L.D. Bergelson</i>	475
Studies on the structure and function of the mitochondrial ATPase complex <i>V.A. Grinkevich, N.A. Aldanova, P.V. Kostetsky, N.N. Modyanov, Yu.A. Ovchinnikov, T. Hundal and L. Ernster</i>	483
Tumor specific inhibition of DNA synthesis and cell proliferation by a factor from bovine placenta <i>K. Letnansky</i>	489
The molecular structure of the muscarinic acetylcholine receptor <i>H. Repke</i>	501
Time-averaged phosphorescence studies of $(\text{Ca}^{2+}\text{-Mg}^{2+})\text{ATPase}$ rotational diffusion <i>C.J. Restall and D. Chapman</i>	509
Reorganization of inner mitochondrial membrane and reversible protein translocation <i>A. Waksman, G. Cremel, P. Hubert, C. Mutet and C. Burgun</i>	515
Structure and function of pure renal Na,K-ATPase <i>P.L. Jørgensen</i>	527
Investigation of membrane proteins of halobacteria, lactobacilli and micrococci <i>D.N. Ostrovsky</i>	535
Isolation and properties of the major proteins of the brain myelin <i>P. Riccio and E. Quagliariello</i>	545
Penicillin-binding proteins and cell division in <i>Escherichia coli</i> <i>A. Rodríguez-Tébar, R. Prats, J. Díaz, V. Arán, J.A. Barbas and D. Vázquez</i>	551
Immunotargeted chemotherapy in cancer research <i>R. Arnon</i>	565
Rapid laser-flash photoaffinity labeling of acetylcholine receptor functional states <i>A. Fahr, P. Muhn, L. Lauffer and F. Hucho</i>	571
The role of proton coupling in nutrient transport in yeasts <i>A. Kotyk</i>	577
