LIST OF CONTRIBUTORS	xiii
----------------------	------

PREFACE	xvii
---------	------

1. <i>Studies of Human Endometrium in Organ Culture</i> <i>David G. Kaufman, Thomas A. Adamec, Leslie A. Walton, Charles N. Carney, Susan A. Melin, Valerio M. Genta, Marc J. Mass, B. Hugh Dorman, Nancy T. Rodgers, Guy J. Photopoulos, Judith Powell, and Joe W. Grisham</i>	
I. Introduction	2
II. Materials and Methods	3
III. Results	7
IV. Discussion	19
V. Perspectives	24
References	27
2. <i>Tissue Culture of the Human Uterine Cervix</i> <i>George D. Wilbanks, Edmund Leipus, and David Tsurumoto</i>	
I. Introduction	29
II. Materials and Methods	31
III. Results and Discussion	40
IV. Perspectives	47
References	50
3. <i>Normal Human Endometrium in Cell Culture</i> <i>D. Kirk and J. C. Irwin</i>	
I. Introduction	52
II. Materials	53
III. Methods	54
IV. Results	59
V. Discussion	71
VI. Perspectives	74
References	76
4. <i>Human Breast Organ Culture Studies</i> <i>E. A. Hillman, M. J. Vocci, J. W. Combs, H. Sanefuji, T. Robbins, D. H. Janss, C. C. Harris, and B. F. Trump</i>	
I. Introduction	80
II. Materials and Methods	80

III. Results	83
IV. Discussion	97
V. Perspectives	103
References	105
 5. <i>Methods for the Isolation and Culture of Normal Human Breast Epithelial Cells</i>	
<i>Douglas H. Janss, Elizabeth A. Hillman, Louise B. Malan-Shibley, and Theresa L. Ben</i>	
I. Introduction	108
II. Materials and Methods	110
III. Results	116
IV. Discussion	125
V. Perspectives	128
References	133
 6. <i>Explant Culture: Pancreatic Islets</i>	
<i>Arne Andersson and Claes Hellerström</i>	
I. Introduction	135
II. Structure of the Human Endocrine Pancreas	136
III. Review of Previous Work on Human Islet Cell Culture	139
IV. Specific Requirements for Culture of Pancreatic Endocrine Cells	142
V. Optimal Methodology	146
VI. Perspectives	149
References	150
 7. <i>Primary Cultures of Human Prostate</i>	
<i>L. M. Franks</i>	
I. Introduction	153
II. Outgrowth Culture	154
III. Epithelial Suspension Culture	162
IV. Organ Culture	164
V. Conclusions	166
References	167
 8. <i>Long-Term Explant Culture of Normal Human Prostate</i>	
<i>Barry M. Heatfield, Hayato Sanefuji, and Benjamin F. Trump</i>	
I. Introduction	172
II. Methods and Materials	172
III. Results	175
IV. Discussion	185
V. Perspectives	190
References	193

9. *Normal Human Prostate Epithelial Cell Cultures*John F. Lechner, Merrill S. Babcock, Maureen Marnell, K. Shankar Narayan, and
M. Edward Kaighn

I. Introduction	196
II. Materials and Methods	196
III. Results	203
IV. Discussion	217
V. Perspectives	221
References	224

10. *The Human Placenta in Cell and Organ Culture*

Kurt Stromberg

I. Introduction	227
II. Methods	228
III. Results	236
IV. Discussion	245
V. Perspectives	248
References	250

11. *Overview: Endocrine Systems*

M. Edward Kaighn

I. Overview of Endocrine Systems	253
II. Differentiation vs. Growth	254

12. *Organ Culture of Normal Human Bladder: Choice of Starting Material and Culture Characteristics*

M. A. Knowles, R. M. Hicks, R. J. Berry, and E. Milroy

I. Introduction	257
II. Materials and Methods	259
III. Results	261
IV. Discussion	278
V. Perspectives	282
References	283
Note Added in Proof	283

13. *Histophysiologic Gradient Culture of Stratified Epithelium*

Joseph Leighton, Ruy Tchao, Robert Stein, and Nabil Abaza

I. Introduction	287
II. Methods and Materials	292
III. Results	296
IV. Discussion	302
V. Perspectives	304
References	306

14.	<i>Cell and Explant Culture of Kidney Tubular Epithelium</i> <i>B. F. Trump, T. Sato, A. Trifillis, M. Hall-Craggs, M. W. Kahng, and M. W. Smith</i>	
	I. Introduction	309
	II. Methods and Results	310
	III. Perspectives	324
	References	325
15.	<i>Summary—Urinary Tract</i> <i>Benjamin F. Trump</i>	
	Text	327
16.	<i>Human Esophageal Organ Culture Studies</i> <i>E. A. Hillman, M. J. Vocci, W. Schürch, C. C. Harris, and B. F. Trump</i>	
	I. Introduction	332
	II. Materials and Methods	333
	III. Results	334
	IV. Discussion	341
	V. Perspectives	344
	References	347
17.	<i>Organ Culture of Gastric Mucosa: Advantages and Limitations</i> <i>Robert M. Donaldson, Jr. and Cyrus R. Kapadia</i>	
	I. Introduction	349
	II. Methods	351
	III. Results	353
	IV. Discussion	358
	V. Perspectives	360
	References	363
18.	<i>Organ Culture of the Mucosa of Human Small Intestine</i> <i>Jerry S. Trier</i>	
	I. Introduction	365
	II. Methods	366
	III. Results	369
	IV. Discussion and Perspectives	381
	V. Conclusions	383
	References	383

19. *Explant Culture of Human Colon**Herman Audrup*

I. Introduction	385
II. Materials and Methods	386
III. Results	388
IV. Discussion	394
V. Application and Perspective	396
References	400

20. *Establishment and Characterization of Intestinal Epithelial Cell Cultures**Andrea Quaroni and Roger J. May*

I. Introduction	403
II. Methods and Materials	404
III. Results	411
IV. Discussion and Perspectives	423
References	426

21. *Culture of Human Pancreatic Ducts**Raymond T. Jones, Benjamin F. Trump, and Gary D. Stoner*

I. Introduction	429
II. Materials and Methods	430
III. Results	432
IV. Discussion	438
V. Perspectives	438
References	439

22. *Methodology and Utility of Primary Cultures of Hepatocytes from Experimental Animals**Henry C. Pitot and Alphonse E. Sirica*

I. Introduction	441
II. Methods of Liver Cell Culture	442
III. Utilization of Primary Cultures of Adult Hepatocytes	447
IV. Perspectives and Conclusions	452
References	453

23. *Human Liver Cells in Culture**Warren I. Schaeffer and Dana J. Kessler*

I. Introduction	457
II. Methods and Materials	458
III. Results	463

IV. Discussion and Perspectives	470
References	472

24. *Overview*
Jerry S. Trier
