

**PART I THE FUNDAMENTALS
OF LIFE**

CONTENTS

1

THE STUDY OF LIFE 1

INTRODUCTION 2

HOW DO WE ORGANIZE THE
WORLD OF LIFE? 2

Vitalism Versus Mechanism 2

The Scientific Method 3

THE CHARACTERISTICS OF
LIVING ORGANISMS 6

Structure 6

Metabolic Activity 7

Irritability 7

Reproduction 8

Ability to Evolve 8

Evolution: the Key to Diversity 9

SUMMARY 10

REVIEW AND STUDY

QUESTIONS 10

2 ATOMS, MOLECULES, AND CHEMICAL BONDS 11

MATTER AND ENERGY 12

The Kinds of Energy 12

States of Matter 13

THE STRUCTURE OF ATOMS 14

Inside the Atom 14

Isotopes and Radioactivity 16

ATOMS AND MOLECULES 18

Chemical Bonds: The Links of Molecules 19

CHEMICAL REACTIONS 23

MIXTURES AND SOLUTIONS 24

Concentration 25

THE SPEED OF CHEMICAL REACTIONS 25

DISSOCIATION AND EQUILIBRIUM 27

Acids, Bases, and Buffers 27

THE ORIGIN OF LIFE 29

The Current Hypothesis 29

SUMMARY 31

REVIEW AND STUDY

QUESTIONS 32

3 THE CHEMISTRY OF LIFE 33

THE MOLECULES OF LIFE 34

Small Molecules 34

Large Molecules 37

SUMMARY 47

REVIEW AND STUDY

QUESTIONS 47

4 THE CELL 49

INTRODUCTION 50

CELL THEORY 50

HOW CELLS ARE STUDIED: TOOLS THAT EXTEND OUR SENSES 51

Microscopy 51

Centrifuges 55

Radioactivity as a Tracer of Function 55

ESSAY: Microscopes—Revealing More than Meets the Eye 56

CELL FORM AND FUNCTION 58

MECHANISMS OF TRANSPORT 59

Diffusion 59

ESSAY: How to Construct, Read, and Interpret a Graph 60

Osmosis 62

Passive and Active Transport 64

INTERNAL STRUCTURES OF THE CELL 66

Cellular Membranes 67

The Cell Nucleus 67

The Cytoplasm 69

DIVERSITY OF CELLS 78

CELL SPECIALIZATION 79

Specialization in Plant Cells 79

Specialization in Animal Cells 83

SUMMARY 90

REVIEW AND STUDY

QUESTIONS 91

5 PHOTOSYNTHESIS AND CELLULAR RESPIRATION 93

INTRODUCTION 94

COMPONENTS OF ENERGY

REACTIONS 94

PHOTOSYNTHESIS 95

Leaf Structure 95

Chloroplasts 96

Photosynthesis: An Overview 98

Energy Trapping: Chlorophyll 98

Electron Carrier: NADP 99

Energy Currency: ATP 100

Two Light Reactions 101

Dark Reactions: The Calvin Cycle 103

RESPIRATION 107

Glycolysis 108

Krebs (Citric Acid) Cycle 110

Electron Transport Chain 111

Summary of Respiration 111

Fermentation 114

ENERGY YIELD 115

SUMMARY 116

REVIEW AND STUDY

QUESTIONS 117

PART II STRUCTURE AND FUNCTION OF THE ORGANISM

6 NUTRITION: OBTAINING AND PROCESSING FOOD 119

INTRODUCTION 120

AUTOTROPHS AND
HETEROTROPHS 120

AUTOTROPHS: THE ENERGY
PRODUCERS 122

Gas Absorption 123

Water Absorption 124

Mineral Absorption 127

Methods of Obtaining Nitrogen 127

HETEROTROPHS: THE
CONSUMERS 129

Heterotrophic Nutrition 130

DIGESTION 134

Intracellular Digestion 134

Extracellular Digestion 135

Mouths 136

ORGANS OF HUMAN DIGESTION
AND ABSORPTION 138

Human Digestive Enzymes 140

The Human Mouth 140

The Human Esophagus 140

The Human Stomach 142

The Small Intestine 142

The Human Appendix 145

The Human Colon 145

The Human Rectum 145

Accessory Organs 145

The Human Liver 145

The Human Pancreas 146

HUMAN NUTRITION 147

Nutrient Categories 147

Malnutrition 150

SUMMARY 153

REVIEW AND STUDY

QUESTIONS 153

7 INTERNAL TRANSPORT AND GAS EXCHANGE 155

INTRODUCTION 156

Mechanism of Gas Transport 156

GENERAL PRINCIPLES OF
TRANSPORT 157

Internal Transport 157

Gas Exchange 157

EXCHANGE AND TRANSPORT IN
UNICELLULAR ORGANISMS 158

EXCHANGE AND TRANSPORT IN
SIMPLE PLANTS 158

Internal Transport 158

Gas Exchange 160

GAS EXCHANGE AND TRANSPORT
IN VASCULAR PLANTS 160

Gas Exchange 160

Regulation of Water Balance 161

TRANSPORT IN HIGHER
PLANTS 163

Roots: Obtaining Water 163

Conductive Tissue: Xylem 164

Nutrient Conduction: Phloem 166

GAS EXCHANGE IN
ANIMALS 168

GAS TRANSPORT IN
ANIMALS 168

Blood 169

Specialized Structures for Gas
Exchange 169

Control of Breathing 173

VASCULAR SYSTEMS: HEARTS
AND BLOOD VESSELS 174

Open Circulatory Systems 174

Closed Circulatory Systems 175

THE HUMAN CIRCULATORY
SYSTEM 176

Human Blood 176

Composition of Blood 177

Functions of Blood 179

ESSAY: The Body's Defense
System 180

The Human Heart: A Remarkable
Pump 185

Circulation: Heart and Vessels 185

Heart Control Mechanisms 186

Nourishment of Heart Muscle 187

Blood Pressure 187

Lymphatic Circulation 189

ESSAY: Hypertension: An Internal
Time Bomb 190

SUMMARY 192

REVIEW AND STUDY

QUESTIONS 193

8 EXCRETION AND HOMEOSTASIS 195

- INTRODUCTION 196
- Need for Regulation 196
- CELLULAR HOMEOSTASIS 197
- End-Product Inhibition 197
- Regulation of pH 198
- Elimination of Nitrogen-Containing Wastes 199
- Regulation of Salts and Water 199
- Regulation of Nutrients 200
- HOMEOSTASIS IN MULTICELLULAR ANIMALS 202
- The Mammalian Liver 202
- ESSAY: Diabetes Mellitus: A Glucose Roller Coaster 204
- Kidneys: The Principal Regulatory Organs 206
- Special Problems in Water Regulation 212
- Physiological Regulation of Temperature 213
- SUMMARY 216
- REVIEW AND STUDY QUESTIONS 217

9 HORMONES 219

- INTRODUCTION 220
- PLANT HORMONES 220
- Auxins 220
- Gibberellins 223
- Cytokinins 223
- Abscisic Acid 223
- Ethylene Gas 223
- Photoperiodism 223
- ANIMAL HORMONES 224
- THE HUMAN ENDOCRINE SYSTEM 225
- The Hypothalamus: The Master Gland's Master 225
- Posterior Pituitary 228
- Anterior Pituitary 229
- Thyroid 229
- Parathyroid Glands 230
- Pancreas 230
- Adrenal Gland 230
- Gonads 231
- Other Endocrine Organs 231

- Feedback Control in the Endocrine System 232
- Mechanisms of Hormone Action 232
- INSECT HORMONES 235
- OTHER CHEMICAL MESSENGERS 236
- SUMMARY 236
- REVIEW AND STUDY QUESTIONS 237

10 MOVEMENT AND NERVOUS CONTROL 239

- INTRODUCTION 240
- PLANT MOVEMENT 240
- Tropisms 240
- Nastic Movements 241
- The Mechanisms of Plant Movements 242
- ANIMAL MOVEMENT 243
- Skeletal Systems 244
- Skeletal Muscles 250
- Other Types of Muscle 253
- NERVOUS CONTROL 253
- The Neuron 255
- Conduction: The Nerve Impulse 255
- ESSAY: Conditioning for Athletes at the Cellular Level 256
- Receptor Cells 261
- CENTRAL NERVOUS SYSTEM IN VERTEBRATES 270
- Reflex Arcs 270
- Autonomic Nervous System 271
- The Vertebrate Brain 272
- Modern Views of the Brain 275
- SUMMARY 276
- REVIEW AND STUDY QUESTIONS 277

11 BEHAVIORAL PATTERNS 279

- INTRODUCTION 280
- INNATE BEHAVIOR 280
- Approach-Avoidance Behaviors 280
- Reflex Behavior 280
- Fixed Action Patterns 281
- LEARNED BEHAVIORS 283
- Imprinting and Early Environmental Learning 283

Habituation	284
Conditioned Learning	284
Trial-and-Error Learning	285
Maze Learning	285
Insight Learning and Concept Formation	285
ESSAY: Sociobiology: Extrapolating from Animal to Human Behavior	286
Curiosity and Learning	288
Displacement Behaviors	289
ANIMAL COMMUNICATION AND SOCIAL BEHAVIOR	289
Tactile Systems	289
Chemical Systems	289
Optical Systems	290
Acoustical Systems	291
REPRODUCTIVE BEHAVIOR	293
Sexual Attraction	293
Courtship and Mating	293
PARENTAL BEHAVIOR	295
Behavior Toward the Eggs	295
Behavior Toward the Young	297
MIGRATION AND NAVIGATION	298
Navigational Cues	299
BIOLOGICAL CLOCKS	300
Circadian Rhythm	300
SUMMARY	301
REVIEW AND STUDY	
QUESTIONS	302

PART III THE CONTINUITY OF LIFE

12

REPRODUCTIVE PROCESSES 303

INTRODUCTION	304
REPRODUCTION AMONG UNICELLULAR ORGANISMS	304
Asexual Methods	304
Sexual Methods	306
REPRODUCTION IN MULTICELLULAR PLANTS	307
Vegetative Reproduction	307

Alternation of Sexual and Asexual Generations in Plants	307
Reproduction in Higher Plants	309
Reproductive Structures in Flowering Plants	310

REPRODUCTION IN MULTICELLULAR ANIMALS 311

Sexual Reproduction in Higher Animals	313
HUMAN REPRODUCTION	315
Female Reproductive Structures	316
Male Reproductive Structures	319
ESSAY: Birth Control Methods	322
Contraception	325
SUMMARY	325
REVIEW AND STUDY	
QUESTIONS	326

13

DEVELOPMENT 327

INTRODUCTION	328
PROCESSES OF ANIMAL DEVELOPMENT	330
DEVELOPMENT IN PLANTS	330
Germination	330
The Meristem and Plant Development	331
Root Development	331
Stem Development	331
Differentiation in Plants	332
Regeneration in Plants	333
DEVELOPMENT IN ANIMALS	334
Egg and Sperm Formation	334
Fertilization	335
The Early Stages of Development	336
INTERACTING SYSTEMS IN ANIMAL DEVELOPMENT	339
The Qualities of the Egg	339
Cell Movement and the Process of Morphogenesis	340
Differentiation	340
Induction	343
Cellular Death in Morphogenesis	343
Metamorphosis	344
ESSAY: Stages of Human Development from Fertilization to Birth	346
SUMMARY	348
REVIEW AND STUDY	
QUESTIONS	349

14

CELLULAR DIVISION IN EUKARYOTIC ORGANISMS 351

INTRODUCTION 352

CELL HEADQUARTERS 353

MITOTIC DIVISION 353

The Stages of Mitosis 354

Cytokinesis 357

The Importance of Mitosis 358

MEIOTIC DIVISION 359

The First Division of Meiosis 359

The Second Division of Meiosis 361

Comparison of Meiosis in Males
and Females 361

COMPARISON OF MITOSIS AND
MEIOSIS 363

SUMMARY 364

REVIEW AND STUDY
