Preface to Third Edition, vii

Preface to First Edition, viii

Introduction: Abstract of the Book, 3

PART I

Section

- 1 The Bacterial Cell: Major Structures, 9
- 2 Growth: Cells and Populations, 15
- 3 Class I Reactions: Supply of Carbon Skeletons, 19
- 4 Class II Reactions: Biosynthesis of Small Molecules, 21
- 5 & 6 Class III Reactions: Synthesis of Macromolecules, 24
- 7 Genetics, 30
- 8 & 9 Co-ordination and Differentiation, 37

PART II

Chapter

- 1 The Bacterial Cell: Major Structures, 43
P. E. REYNOLDS
- 2 Growth: Cells and Populations, 99
R. H. PRITCHARD AND
D. W. TEMPEST

- 3 Class I Reactions: Supply of Carbon Skeletons, 125

E. A. DAWES AND P. J. LARGE

- 4 Class II Reactions: Synthesis of Small Molecules, 159

E. A. DAWES AND P. J. LARGE

- 5 Class III Reactions: the Structure and Synthesis of Nucleic Acids, 185

MICHAEL J. WARING AND
KENNETH MCQUILLEN

- 6 Class III Reactions: Synthesis of Proteins, 239

KENNETH MCQUILLEN

- 7 Genetics, 275

J. G. SCAIFE

- 8 Co-ordination of Metabolism, 325

S. BAUMBERG

- 9 Differentiation: Sporogenesis and Germination, 355

IAN W. DAWES

APPENDICES

- A Bacterial Classification, 391

D. KERRIDGE

- B Enzyme Mechanisms: Functions of Vitamins and Co-enzymes, 405

KENNETH MCQUILLEN

- C Glossary, 417

Index, 421
