<i>Frontispiece</i>	
<i>Contributors</i>	vii
<i>Foreword</i>	ix
<i>Preface</i>	xi
1 Taxonomic status and ecological identity in the basidiomycetes <i>R. Watling</i>	1
2 Production, release and dispersal of basidiospores <i>C. L. Kramer</i>	33
3 The rôle of polysaccharidase enzymes in the decay of wood by basidiomycetes <i>R. A. P. Montgomery</i>	51
4 Formation and action of the ligninolytic system in basidiomycetes <i>T. K. Kirk and P. Fenn</i>	67
5 The movement of <i>Serpula lacrimans</i> from substrate to substrate over nutritionally inert surfaces <i>D. H. Jennings</i>	91
6 Population structure in wood-decomposing basidiomycetes <i>A. D. M. Rayner and N. K. Todd</i>	109
7 Ecological genetics of basidiomycete populations in decaying wood <i>A. D. M. Rayner and N. K. Todd</i>	129

8	Basidiomycete decay of standing trees <i>P. C. Mercer</i>	143
9	The place of basidiomycetes in the decay of wood in contact with the ground <i>J. F. Levy</i>	161
10	The decay of commercial timbers <i>D. J. Dickinson</i>	179
11	Decomposition by basidiomycetes in aquatic environ- ments <i>E. B. Gareth Jones</i>	191
12	Decomposing activity of basidiomycetes in forest litter <i>T. F. Hering</i>	213
13	The colonisation of litter and wood by basidiomycetes in Finnish forests <i>V. Hintikka</i>	227
14	Biomass and nutrient cycling by decomposer basidiomycetes <i>J. C. Frankland</i>	241
15	The rôle of basidiomycetes in composts: a model system for decomposition studies <i>J. N. Hedger and T. Basuki</i>	263
16	Basidiomycetes as components of forest ecosystems <i>M. J. Swift</i>	307
	Systematic index	339
	Subject index	347

8	Basidiomycete decay of standing trees <i>P. C. Mercer</i>	143
9	The place of basidiomycetes in the decay of wood in contact with the ground <i>J. F. Levy</i>	161
10	The decay of commercial timbers <i>D. J. Dickinson</i>	179
11	Decomposition by basidiomycetes in aquatic environ- ments <i>E. B. Gareth Jones</i>	191
12	Decomposing activity of basidiomycetes in forest litter <i>T. F. Hering</i>	213
13	The colonisation of litter and wood by basidiomycetes in Finnish forests <i>V. Hintikka</i>	227
14	Biomass and nutrient cycling by decomposer basidiomycetes <i>J. C. Frankland</i>	241
15	The rôle of basidiomycetes in composts: a model system for decomposition studies <i>J. N. Hedger and T. Basuki</i>	263
16	Basidiomycetes as components of forest ecosystems <i>M. J. Swift</i>	307
	Systematic index	339
	Subject index	347
