

Contents

1

An Introduction to Cells: Prokaryotes and Eukaryotes /1

2

Membranes /5

3

Prokaryotic Cells /12

4

Eukaryotic Cells: The Nucleus /18

5

The Eukaryotic Cytoplasm: Organelles Capturing Energy /29

6

Cytoplasmic Organelles of Protein Synthesis, Secretion, and Absorption in Eukaryotes: Endoplasmic Reticulum, Golgi Complex, and Lysosomes /40

7

Motile Structures in Eukaryotic Cells /50

8

The Cytoskeleton /61

9

Cell Junctions /65

10

Extracellular Structures /70

11

Cell Division /80

12

Viruses /96

Appendix:

Electron Microscopy /101

Index /110
