17

3 THE LANGUAGE OF PSYCHOLOGY

27

Factual Language

28

Paradigm of Logical Atomism

30

Role of the *A Priori*

33

Resume of the Conceptual Account of Facts

34

Observation Variables (*stimulus variables;* *response variables; Venn maps of stimulus and response*)

36

Mediating Variables (*mediators as constructs;* *mediators as inferred entities*)

43

Mental Language

45

NOTES

48

4	THEORIES AND MODELS	57
	Hypothetico-deductive Method	59
	Structure of Theories	63
	Formal Structure of Theory	65
	Models (<i>types of models; truth status of models; are models indispensable?; semantic function of models</i>)	74
	Laws	88
	NOTES	90
5	EXPLANATION	105
	Levels of Explanation (<i>lower-level explanations; higher-level explanations</i>)	109
	Logical Requirement of Explanation	112
	Critique of the Deductivist Thesis (<i>deducibility and the analysis of explanation; explanation and prediction; nondeducible events</i>)	114
	Retrospect	129
	NOTES	130
6	REDUCTIONISM: I	139
	The Meanings of Reductionism (<i>constructual reduction; theoretic reduction</i>)	140
	Formal Requirements of Reduction	144
	<i>Reductionism in Psychology (methodological versus metaphysical reductionism; reductionism and Hull's behavior theory)</i>	146
	Defense of Reductionism	152
	NOTES	155
7	REDUCTIONISM: II	172
	Methodological Objections (<i>reductionism and psychology; two types of reduction; hypothetical concepts and reductionism; the case for reductionism</i>)	173
	Phenomenological Objections (<i>behavioral phenomenology; intentionalistic phenomenology; the "mental" and the "physical"; identical reference hypothesis</i>)	182
	NOTES	195
