

# CONTENTS

preface viii

## PART ONE

### INTRODUCTION TO THE LIVING ANIMAL

#### EXERCISE 1

##### The Microscope 3

- Exercise 1A: Compound light microscope 3
- Exercise 1B: Stereoscopic dissecting microscope 9
- Exercise 1C: Electron microscope 10

#### EXERCISE 2

##### Cell Structure and Division 15

- Exercise 2A: The cell—unit of protoplasmic organization 15
- Exercise 2B: Cell division—mitosis and cytokinesis 18

#### EXERCISE 3

##### Gametogenesis and Embryology 27

- Exercise 3A: Meiosis—maturation division of germ cells 27
- Exercise 3B: Cleavage patterns—spiral and radial cleavage 36
- Exercise 3C: Frog development 44

#### EXERCISE 4

##### Tissue Structure and Function 49

- General description of basic tissue types: epithelial, connective, muscle, nervous 49
- Exercise 4A: Tissues combined into organs 60

#### EXERCISE 5

##### Introduction to Animal Classification 67

- Use of a taxonomic key for animal identification 67
- Key to the major animal taxa 69

## PART TWO

### THE DIVERSITY OF ANIMAL LIFE

#### EXERCISE 6

##### Protozoan Groups 77

- Classification 77
- Exercise 6A: Subphylum Sarcodina—*Amoeba* and others 78
- Exercise 6B: Subphylum Mastigophora—*Euglena*, *Volvox*, and *Trypanosoma* 86
- Exercise 6C: Phylum Apicomplexa, class Sporozoea—*Gregarina* and *Plasmodium* 94
- Exercise 6D: Phylum Ciliophora—*Paramecium* and other ciliates 95
- Experimenting in Zoology: Effect of temperature on the locomotion activity of *Stentor* 101
- Experimenting in Zoology: Genetic polymorphism in *Tetrahymena* 103

#### EXERCISE 7

##### The Sponges 107

- Classification: Phylum Porifera 107
- Exercise 7A: Class Calcarea—*Sycon* 107

#### EXERCISE 8

##### The Radiate Animals 117

- Classification: Phylum Cnidaria 117
- Exercise 8A: Class Hydrozoa—*Hydra*, *Obelia*, and *Gonionemus* 118
- Exercise 8B: Class Scyphozoa—*Aurelia*, a “true” jellyfish 128
- Exercise 8C: Class Anthozoa—*Metridium*, a sea anemone, and *Astrangia*, a stony coral 130

#### EXERCISE 9

##### The Acoelomate Animals 135

- The acoelomate phyla 135
- Classification: Phylum Platyhelminthes 135

- Exercise 9A: Class Turbellaria—the planarians 136
- Exercise 9B: Class Trematoda—the digenetic flukes 144
- Exercise 9C: Class Cestoda—the tapeworms 148
- Experimenting in Zoology: Regeneration in *Planaria* 152

#### EXERCISE 10

##### The Pseudocoelomate Animals 157

- Exercise 10A: Phylum Nematoda—*Ascaris* and others 157
- Exercise 10B: A brief look at some other pseudocoelomates 165

#### EXERCISE 11

##### The Molluscs 169

- Classification: Phylum Mollusca 169
- Exercise 11A: Class Bivalvia (= Pelecypoda)—the freshwater clam 170
- Exercise 11B: Class Gastropoda—the pulmonate land snail 178
- Exercise 11C: Class Polyplacophora—the chiton 181
- Exercise 11D: Class Cephalopoda—*Loligo*, the squid 182

#### EXERCISE 12

##### The Annelids 187

- Classification: Phylum Annelida 188
- Exercise 12A: Class Polychaeta—the clamworm 188
- Exercise 12B: Class Oligochaeta—the earthworms 190
- Exercise 12C: Class Hirudinea—the leech 199
- Experimenting in Zoology: Behavior of the medicinal leech, *Hirudo medicinalis* 201

#### EXERCISE 13

##### The Chelicerate Arthropods 203

- Classification: Phylum Arthropoda 203

Exercise 13A: The chelicerate arthropods—the horseshoe crab and garden spider 204

## EXERCISE 14

### The Crustacean Arthropods 211

Exercise 14A: Subphylum Crustacea—the crayfish (or lobster) and other crustaceans 211

Experimenting in Zoology: The phototactic behavior of *Daphnia* 223

## EXERCISE 15

### The Uniramia Arthropods: Myriapods and Insects 225

Exercise 15A: The myriapods—centipedes and millipedes 225

Exercise 15B: The insects—the grasshopper and the honey bee 227

Exercise 15C: The insects—the house cricket 235

Exercise 15D: Metamorphosis of *Drosophila* 238

Exercise 15E: Collection and classification of insects 239

Key to the principal orders of insects 242

## EXERCISE 16

### The Echinoderms 249

Classification: Phylum Echinodermata 249

Exercise 16A: Class Asterozoidea—the sea stars 250

Exercise 16B: Class Ophiurozoidea—the brittle stars 255

Exercise 16C: Class Echinozoidea—the sea urchin 257

Exercise 16D: Class Holothurozoidea—the sea cucumber 260

Exercise 16E: Class Crinozoidea—the feather stars and sea lilies 263

## EXERCISE 17

### Phylum Chordata: A Deuterostome Group 265

What defines a chordate? 265

Classification: Phylum Chordata 266

Exercise 17A: Subphylum Urochordata—*Ciona*, an ascidian 266

Exercise 17B: Subphylum Cephalochordata—amphioxus 269

## EXERCISE 18

### The Fishes—Lampreys, Sharks, and Bony Fishes 273

Exercise 18A: Class Cephalaspidomorphi (= Petromyzontes)—the lampreys (ammocoete larva and adult) 273

Exercise 18B: Class Chondrichthyes—the cartilaginous fishes 278

Exercise 18C: Class Osteichthyes—the bony fishes 284

Experimenting in Zoology: Aggression in paradise fish, *Macropodus opercularis* 291

Experimenting in Zoology: Analysis of the multiple hemoglobin system in *Carassius auratus*, the common goldfish 293

## EXERCISE 19

### Class Amphibia 297

Exercise 19A: Behavior and adaptations 297

Exercise 19B: The skeleton 301

Exercise 19C: The skeletal muscles 303

Exercise 19D: The digestive, respiratory, and urogenital systems 310

Exercise 19E: The circulatory system 313

Exercise 19F: The nervous system 318

## EXERCISE 20

### Class Reptilia 321

Exercise 20: The painted turtle 321

## EXERCISE 21

### Class Aves 327

Exercise 21: The pigeon 327

## EXERCISE 22

### Class Mammalia 333

Exercise 22A: The skeleton 334

Exercise 22B: The muscular system 338

Exercise 22C: The digestive system 347

Exercise 22D: The urogenital system 353

Exercise 22E: The circulatory system 357

Exercise 22F: The nervous system 364

Exercise 22G: The respiratory system 369

## PART THREE

## ACTIVITY OF LIFE

## EXERCISE 23

### Ecological Relationships of Animals 373

Exercise 23A: A study of population growth, with application of the scientific method 373

Exercise 23B: Ecology of a freshwater habitat 377

Key to the common freshwater aquatic invertebrates of North America 380

Appendix A: Instructor's Resources for Implementing Exercises 389

Appendix B: Sources of Living Material and Prepared Microslides 424

Credits 427

Index 428
