

Brief Contents

Chapter 1

A Human Perspective 1

Human Organization 15

Chapter 2

Chemistry of Life 15

Chapter 3

Cell Structure and Function 37

Chapter 4

Organization and Regulation of Body Systems 57

Maintenance of the Human Body 77

Chapter 5

Digestive System and Nutrition 77

Chapter 6

Composition and Function of the Blood 105

Chapter 7

Cardiovascular System 121

Chapter 8

Respiratory System 143

Chapter 9

Urinary System and Excretion 163

Movement and Support in Humans 181

Chapter 10

Skeletal System 181

Chapter 11

Muscular System 201

Integration and Coordination in Humans 221

Chapter 12

Nervous System 221

Chapter 13

Senses 247

Chapter 14

Endocrine System 269

Reproduction in Humans 293

Chapter 15

Reproductive System 293

Chapter 16

Development and Aging 315

Human Genetics 337

Chapter 17

Chromosomal Inheritance 337

Chapter 18

Genes and Medical Genetics 357

Chapter 19

DNA and Biotechnology 375

Human Disease 399

Chapter 20

Defenses Against Disease 399

Chapter 21

Parasites and Pathogens 417

Chapter 22

Sexually Transmitted Diseases 441

Chapter 23

Cancer 459

Human Evolution and Ecology 477

Chapter 24

Human Evolution 477

Chapter 25

Global Ecology 493

Chapter 26

Population, Resources, and Pollution 509

Chapter 27

Saving the World's Biodiversity 527
