PREFACE	xi
CONTENTS OF OTHER VOLUMES	xiii

1. Reproduction in Cyclostome Fishes and Its Regulation

Aubrey Gorbman

I. Introduction	1
II. Reproductive Patterns in Lampreys	2
III. Reproductive Patterns of the Myxinoids	4
IV. Sex Differentiation	6
V. Gametogenesis	10
VI. Endocrine Functions of the Gonads	13
VII. Biological Actions of Sex Hormones in Cyclostomes	17
VIII. Pituitary Gonadotropic Activity	19
IX. Regulation of Reproduction through the Brain	22
X. Generalizations, Projections, Speculations	23
References	26

2. Reproduction in Cartilaginous Fishes (Chondrichthyes)

J. M. Dodd

I. Introduction	31
II. Structures and Functions Associated with Reproduction	33
III. Modes of Reproduction and Cyclicity	75
IV. Summary and Discussion	85
References	87

3. The Brain and Neurohormones in Teleost Reproduction

Richard E. Peter

I. Introduction	97
II. Gonadotropin Releasing Hormone	98
III. Gonadotropin Release: Inhibitory Factor	113

IV. Input of Environmental Factors	116
V. Input of Physiological Factors	120
VI. Functional Neuroendocrinology	124
VII. Conclusion	127
References	127
 4. The Cellular Origin of Pituitary Gonadotropins in Teleosts <i>P. G. W. J. van Oordt and J. Peute</i>	
I. Introduction	137
II. Structure of the Pituitary	137
III. The Gonads and Pituitary Basophils	142
IV. Immunocytochemical Identification of Gonadotropins	146
V. One or Two Types of Gonadotropins	150
VI. The Function of Secretory Granules and Globules	164
VII. The Innervation of the Gonadotropic Cells	170
VIII. Conclusion	173
References	175
 5. Teleost Gonadotropins: Isolation, Biochemistry, and Function <i>David R. Idler and T. Bun Ng</i>	
I. Introduction	187
II. Isolation	188
III. Biological Action	196
IV. Chemistry	203
V. Rhythms and Regulation	208
VI. Concluding Remarks	211
References	212
 6. The Functional Morphology of Teleost Gonads <i>Yoshitaka Nagahama</i>	
I. Introduction	223
II. Morphology of the Reproductive System	224
III. Gametogenesis	234
IV. Steroidogenic Tissues	247
V. Morphology of Egg Membrane-Chorion and Micropyle	259
VI. Concluding Remarks	262
References	264
 7. The Gonadal Steroids <i>A. Fostier, B. Jalabert, R. Billard, B. Breton, and Y. Zohar</i>	
I. Introduction	277
II. Steroidogenic Tissues and Steroid Identification	278

III. Regulation of Steroidogenesis and Steroid Activity	317
IV. Physiological Role of Gonadal Steroids in Reproduction	329
V. Concluding Remarks	344
References	346
 8. Yolk Formation and Differentiation in Teleost Fishes	
<i>T. Bun Ng and David R. Idler</i>	
I. Introduction	373
II. Yolk Proteins	374
III. Vitellogenin	378
References	397
 9. An Introduction to Gonadotropin Receptor Studies in Fish	
<i>Glen Van Der Kraak</i>	
I. Introduction	405
II. General Principles of Receptor Binding	407
III. Receptor Criteria	412
IV. Technical Considerations	421
V. The Application of Receptor-Binding Studies	431
VI. Concluding Remarks	434
References	434
 AUTHOR INDEX	443
SYSTEMATIC INDEX	463
SUBJECT INDEX	475
