

Contents

Introduction	1
Chapter I. Problem of Material and Process in the Phenomena of Phytoimmunity	5
Chapter II. Phytoncides and Phytoalexins	19
Chapter III. Energy Exchange and Phytoimmunity	37
Chapter IV. Plant Reactions to Wounding and Their Protective Role against Infection.	51
Chapter V. The Necrotic Reactions and the Role of the Polyphenol-Polyphenoloxidase System in Phytoimmunity.	67
Chapter VI. Biochemistry of Plant Resistance to Tracheomycotic Diseases	81
Conclusion	99
References	103
Index	111
