Foreword	iii
Abstract	1
Introduction	1
Great Salt Lake Basins.....	2
Purpose and scope.....	2
Historical background.....	2
Fish.....	2
Macroinvertebrates.....	6
Algae	6
Summary of investigations.....	10
Aquatic biota and habitat.....	10
Aquatic populations and community structure.....	10
Species of special concern.....	17
Aquatic habitat and riparian wetlands.....	20
Contaminants	23
Utah Lake – Jordan River Basin	23
Weber River Basin.....	28
Bear River Basin	29
Lakes.....	29
Utah Lake	29
Bear Lake	31
Summary	31
References	32

FIGURES

1-8. Maps showing:

1. Location of Great Salt Lake Basins study unit.....	3
2. Current and historical distribution of (a) Bonneville cutthroat trout, (b) June sucker, (c) least chub, (d) leatherside chub, and (e) spotted frog, in the Great Salt Lake Basins study unit	7
3. Location of sites where macroinvertebrates have been or are currently monitored for water-quality assessments in the Great Salt Lake Basins study unit.....	9
4. Location of studies of fish populations or surveys in the Great Salt Lake Basins study unit	14
5. Location of studies of macroinvertebrate populations or surveys in the Great Salt Lake Basins study unit, excluding water-quality monitoring sites.....	15
6. Location of studies of algal populations in the Great Salt Lake Basins study unit.....	16
7. Location of studies of aquatic habitat in the Great Salt Lake Basins study unit.....	22
8. Location of studies of contaminants in sediments or fish tissues in the Great Salt Lake Basins study unit.....	25
