

CONTENTS

Preface	iii
Contributors	xi
Contents of Volume 1	xiii
Chapter 1. SOIL-FUNGICIDE INTERACTIONS	1
Donald D. Kaufman	
I. Introduction	1
II. Behavior and Fate of Fungicides in Soil	8
III. Effects of Fungicides on Soil Microorganisms	33
References	38
Chapter 2. SYSTEMIC FUNGICIDES: THEORY, UPTAKE, AND TRANSLOCATION	51
L. V. Edgington and Carol A. Peterson	
I. Introduction	52
II. Theory of Apoplastic and Symplastic Movement	52
III. Uptake of Fungicides by the Plant	64
IV. Transport of Fungicides	76
V. Prerequisites for Systemicity	81
References	84
Chapter 3. BIOLOGICAL CONVERSION OF FUNGICIDES IN PLANTS AND MICROORGANISMS	91
A. Kaars Sijpesteijn, H. M. Dekhuijzen, and J. W. Vonk	
I. Introduction	92
II. Dithiocarbamates	95
III. Trichloromethylsulfenyl Fungicides	105

IV. Benzimidazole Derivatives Including Thiophanates	107
V. Dinocap	112
VI. Substituted Benzanalides	113
VII. Organic Phosphate Esters	116
VIII. Pyrimidines	122
IX. Polychlorinated Aromatics	124
X. Organometallic Compounds	131
XI. Miscellaneous Compounds	133
References	139

Chapter 4. BIOLOGICAL CONVERSIONS OF FUNGICIDES
IN ANIMALS 149

Gaylord D. Paulson

I. Introduction	149
II. Thiocarbamate and Related Fungicides	150
III. Organometallic Fungicides	167
IV. Heterocyclic Nitrogen Fungicides	168
V. Aromatic and Related Fungicides	185
VI. Antibiotic Fungicides	198
VII. Organophosphate Fungicides	202
VIII. General Discussion	203
References	204

Chapter 5. NONBIOLOGICAL CONVERSIONS OF FUNGICIDES ... 209

David Woodcock

I. Introduction	210
II. Soil Fungicides and Seed Sterilants	212
III. Protectant Fungicides	220
IV. Systemic Fungicides	229
V. Recent Developments	242
References	245

Chapter 6. PERMEATION AND MIGRATION OF FUNGICIDES
IN FUNGAL CELLS 251

Donald V. Richmond

I. Introduction	252
II. How Fungicides Reach the Fungus	255
III. Detection of Sites of Action and Accumulation ...	257
IV. Significance of Uptake	259
V. Role of the Cell Wall	262
VI. Role of the Cell Membrane	264
VII. Inorganic Fungicides	266

VIII.	Aliphatic Amines	267
IX.	Fungicides Reacting with Thiols	267
X.	Systemic Fungicides	269
XI.	Conclusions	270
	References	271
Chapter 7.	INHIBITION OF FUNGAL CELL WALL SYNTHESIS AND CELL MEMBRANE FUNCTION	277
	Tomomasa Misato and Kazuo Kakiki	
	I. Inhibitors of Fungal Cell Wall Synthesis	277
	II. Inhibitors of Cell Membrane Function	286
	References	295
Chapter 8.	EFFECT OF FUNGICIDES ON ENERGY PRODUCTION AND INTERMEDIARY METABOLISM	301
	H. Lyr	
	I. Introduction	301
	II. Nonspecific Effects on Energy Production	303
	III. Specific Effects on Energy Production	311
	References	328
Chapter 9.	INHIBITORS OF LIPID SYNTHESIS	333
	Nancy N. Ragsdale	
	I. Introduction	334
	II. Sterols	335
	III. Gibberellins	345
	IV. Carotenoids	348
	V. Sex Hormones	350
	VI. Fatty Acids	354
	VII. Acetogenins	354
	VIII. Recent Developments	356
	References	357
Chapter 10.	EFFECT OF FUNGICIDES ON NUCLEIC ACID SYNTHESIS AND NUCLEAR FUNCTION	365
	J. Dekker	
	I. Introduction	366
	II. Synthesis of Nucleotides	366
	III. Replication and Transcription of DNA	373
	IV. Nuclear Function	380
	V. Discussion	391
	References	392

VIII.	Aliphatic Amines	267
IX.	Fungicides Reacting with Thiols	267
X.	Systemic Fungicides	269
XI.	Conclusions	270
	References	271
Chapter 7.	INHIBITION OF FUNGAL CELL WALL SYNTHESIS AND CELL MEMBRANE FUNCTION	277
	Tomomasa Misato and Kazuo Kakiki	
	I. Inhibitors of Fungal Cell Wall Synthesis	277
	II. Inhibitors of Cell Membrane Function	286
	References	295
Chapter 8.	EFFECT OF FUNGICIDES ON ENERGY PRODUCTION AND INTERMEDIARY METABOLISM	301
	H. Lyr	
	I. Introduction	301
	II. Nonspecific Effects on Energy Production	303
	III. Specific Effects on Energy Production	311
	References	328
Chapter 9.	INHIBITORS OF LIPID SYNTHESIS	333
	Nancy N. Ragsdale	
	I. Introduction	334
	II. Sterols	335
	III. Gibberellins	345
	IV. Carotenoids	348
	V. Sex Hormones	350
	VI. Fatty Acids	354
	VII. Acetogenins	354
	VIII. Recent Developments	356
	References	357
Chapter 10.	EFFECT OF FUNGICIDES ON NUCLEIC ACID SYNTHESIS AND NUCLEAR FUNCTION	365
	J. Dekker	
	I. Introduction	366
	II. Synthesis of Nucleotides	366
	III. Replication and Transcription of DNA	373
	IV. Nuclear Function	380
	V. Discussion	391
	References	392

XI. Organomercury Compounds	572
XII. Organotin Compounds	578
XIII. Griseofulvin	580
XIV. Miscellaneous Fungicides	581
Summary	582
References	582
Author Index	599
Subject Index	661

Scientific Research in the Netherlands, Utrecht, The Netherlands

J. SPANIK

Laboratory of Plant Pathology, Agricultural University, Wageningen,
The Netherlands

L. V. EDWARDS

Department of Environmental Biology, University of Guelph, Guelph, Ontario,
Canada, Canada

LAWRENCE STELLER

Chemistry Division, National Center for Technological Research, Jefferson,
Alabama

G. G. GEORGOPOULOS

Department of Biology, Nuclear Research Center "Demokritos," Athens,
Greece

A. K. AND S. PESTELIN

Institute for Organic Chemistry THO, Central Office, Wageningen,
Scientific Research in the Netherlands, Utrecht, The Netherlands

K. J. SAKAI

Frederick Laboratory, Institute of Physical and Chemical Research,
Wako-shi, Saitama, Japan

DONALD L. KIRBY

Pesticide Degradation Laboratory, Agricultural Environmental Quality
Institute, Agricultural Research Service, United States Department of
Agriculture, Beltsville, Maryland

Present address: Center for Agricultural Research, Wageningen,
The Netherlands

Present address: Department of Plant Pathology, Agricultural College of
Athens, Patras, Athens, Greece
