## UNIT-1 (1—139)

- |    |                             |    |
|----|-----------------------------|----|
| 1. | Cell Structure and Function | 3  |
| 2. | Biomolecules                | 18 |
| 3. | Cell Division               | 84 |
| 4. | Genes                       | 95 |

## UNIT-2 (141—231)

- |    |                     |     |
|----|---------------------|-----|
| 5. | Gene Expression     | 143 |
| 6. | Genetic Engineering | 187 |

## UNIT-3 (233—302)

- |    |                               |     |
|----|-------------------------------|-----|
| 7. | Development of Biotechnology  | 235 |
| 8. | Applications of Biotechnology | 247 |
| 9. | Biotechnology and Society     | 289 |
