

CONTENTS

Unit I Life

- 1 The Nature of Life 2**
 - A. The Living and the Lifeless 3
 - B. Characteristics of Life 6
 - C. Inquiry into Life 9
- 2 Cells 12**
 - A. The Cell Theory 13
 - B. Methods of Cell Study 18
 - C. Cell Structure 20
 - D. Cell Groups 26
 - E. Plant and Animal Tissues 31
- 3 Biochemistry 38**
 - A. Chemical Structure 39
 - B. Chemical Fundamentals 44
 - C. Organic Chemistry 51
- 4 Energy 60**
 - A. Energy from Respiration 61
 - B. Chemistry of Respiration 69
 - C. Enzymes 76

Unit II Organisms

- 5 Life and Change 84**
 - A. Change on the Earth 85
 - B. Evidence from fossils 90
 - C. Other Evidence of Change 96
 - D. The Variety of Life 101
 - E. Three Kingdoms 104
- 6 Protists 118**
 - A. Kinds of Protists 119
 - B. Bacteria 123
 - C. Protozoa 129
- 7 Plants 134**
 - A. Thallophytes 135
 - B. Embryophytes 141
- 8 Animals 148**
 - A. Invertebrates 149
 - B. Animal Structure and Function 155
 - C. Arthropods 160
 - D. Chordates 166

Unit III Maintenance

9 Food 174

- A. Methods of Food-Getting 175
- B. Nutrients 180
- C. Vitamins 184
- D. Nutrition and Diet 188

10 Plant Nutrition and Maintenance 192

- A. Photosynthesis 193
- B. Experiments in Photosynthesis 197
- C. Chemistry of Photosynthesis 200
- D. Structure of Vascular Plants 207
- E. Maintenance in Plants 212

11 Digestion in Animals 218

- A. Membranes 219
- B. Digestive Systems 223
- C. The Digestive Process 228

12 Circulation 234

- A. Transport and Body Fluids 235
- B. Blood and Lymph 238
- C. Special Functions of Blood 242
- D. Man's Circulatory System 245
- E. Circulation and Health 249

13 Homeostasis 254

- A. Homeostatic Control 255
- B. Respiration in Lower Animals 259
- C. Respiration in Man 261
- D. Excretion 265

Unit IV Regulation

14 Chemical Control 272

- A. Insulin as a Hormone 273
- B. The Endocrine System 278
- C. Plant Hormones 284

15 Stimulus and Response 290

- A. Nervous Systems 291
- B. Vertebrate Nerve Centers 297
- C. Nerves and Senses 301
- D. Effectors 307

16 Behavior 314

- A. Inborn Behavior 315
- B. Acquired Behavior 320
- C. Maturity and Mental Health 325

17 Social Behavior 330

- A. The Honeybee 331
- B. Societies 336
- C. Communication and Orientation 339

Unit V Continuity

18 Cellular Reproduction 348

- A. Reproduction and Cell Division 349
- B. Asexual Reproduction 355
- C. Sexual Reproduction 358

19 Animal Development 364

- A. Invertebrate Life Cycles 365
- B. Development of Vertebrates 370
- C. Mammalian and Human Development 373
- D. Problems of Development 379

20 Plant Development 386

- A. Flower and Seed 387
- B. Plant Life Cycles 394

21 Genetics 400

- A. Mendelian Heredity 401
- B. Mendelism Today 406
- C. The Gene Theory 410
- D. Modification of Gene Effects 415
- E. Plant and Animal Breeding 418

22 Biochemical Genetics 426

- A. DNA 427
- B. Control of Protein Synthesis 431
- C. Genes and Metabolism 436
- D. Viruses 443
- E. The Future of Genetics 448

Unit VI Evolution

23 The Origin of Species 456

- A. Natural Selection 457
- B. Evolution Today 461
- C. The Process of Evolution 464

24 The History of Life 470

- A. Biological Time 471
- B. Life in the Past 475
- C. The Course of Evolution 481

25 The Origin of Life 486

- A. Spontaneous Generation 487
- B. The Heterotroph Hypothesis 49
- C. Exobiology 496
- D. Man in Space 503

26 The Human Species 508

- A. Human Origins 509
- B. Human Genetics 515
- C. Races of Man 520
- D. Biology and Culture 523
- E. The Population Problem 527

Unit VII Ecology

27 The Web of Life 534

- A. The Environment 535
- B. The Community 540
- C. World Communities 546

28 Infection and Immunity 556

- A. The Germ Theory 557
- B. Infectious Diseases 562
- C. Immunity 566

29 Health and Disease 574

- A. Noninfectious Diseases 575
- B. Radiation and Man 580
- C. Medical Progress and Problems

30 Man and the Environment 590

- A. Using the Land 591
- B. Pest Control 596
- C. The Conservation of Nature 600
- D. Man and Nature 606
- E. Science and the Environment 61

Glossary 618

General Bibliography 628

Sources of Quotations 629
