I. BALDI MEMORIAL LECTURE	1
II. PLENARY LECTURES	2
III. CONTRIBUTED PAPERS (ORAL LECTURES)	
1. Zooplankton I—polymorphism and distribution (B1-Tam-1-7)	3
2. Zooplankton II—seasonal and annual variations (B1-Tpm-1-7)	7
3. Zooplankton III—grazing (B1-Wam-1-9)	11
4. Zooplankton IV—predation and population studies (B1-Wpm-1-9)	16
5. Zooplankton V—behavior and physiology (B1-Fam-1-6)	21
6. Dynamics of communities and ecosystems (B1-Fpm-1-10)	24
7. Primary production of phytoplankton (B2-Tam-1-9)	29
8. Primary production and chlorophyll distribution (B2-Tpm-1-8)	34
9. Distribution and dynamics of phytoplankton (B2-Wam-1-8)	38
10. Dynamics and growth kinetics of phytoplankton (B2-Wpm-1-7)	42
11. Nutrient dynamics (B2-Fam-1-9)	46
12. Nutrient dynamics and fertilization experiments (B2-Fpm-1-8)	51
13. Eutrophication and loading (B2-Sam-1-9)	55
14. Monitoring and modelling (B2-Spm-1-5)	60
15. Microbial ecology I—distribution (C1-Tam-1-7)	63
16. Microbial ecology II—distribution and activity (C1-Tpm-1-9)	67
17. Microbial ecology III—activity and physiology (C1-Wam-1-9)	72
18. Decomposition of organic matter (C1-Wpm-1-8)	77
19. Distribution and dynamics of organic matter (C1-Fam-1-7)	81
20. Hydrology (C1-Fpm-1-10)	85
21. Physical environments and water movement I (C1-Sam-1-6)	90
22. Physical environments and water movement II (C1-Spm-1-6)	93
23. Current developments in the limnology of the North American Great Lakes I (C2-Tam-1-7)	96
24. Current developments in the limnology of the North American Great Lakes II (C2-Tpm-1-6)	100
25. Structure and function of aquatic ecosystems (C2-Wam-1-10)	103
26. Tropical limnology (C2-Wpm-1-9)	108
27. Acidification and acid waters (C2-Fam-1-8)	113
28. Ecology and geochemistry of river ecosystems (C2-Fpm-1-10)	117
29. Pollution in rivers and estuaries (D-Fam-1-8)	122
30. Effects of pollution on aquatic systems (D-Fpm-1-9)	126
31. Self-purification and wastewater treatment (D-Sam-1-7)	131
32. Water quality and management (D-Spm-1-8)	135
33. Algae (I-Tam-1-7)	139
34. Algal physiology and algal assays (I-Tpm-1-10)	143
35. Ecology of periphyton (I-Wam-1-7)	148
36. Macrophytes and biological active substances (I-Wpm-1-8)	152

37. Geochemical aspects of sedimentation (J-Tam-1-9)	156
38. Geochemistry of sediments (J-Tpm-1-8)	161
39. Geochemical behavior of chemical elements (J-Wam-1-9)	165
40. Heavy metals (J-Wpm-1-10)	170
41. Effects of heavy metals on aquatic organisms (J-Fam-1-10)	175
42. Paleolimnology (J-Fpm-1-7)	180
43. Fishes I—general biology (K-Tam-1-10)	184
44. Fishes II—feeding and growth (K-Tpm-1-8)	189
45. Fishes III—population studies and species interactions (K-Wam-1-10)	193
46. Zoobenthos I—crustaceans and molluscs (K-Wpm-1-10)	198
47. Zoobenthos II—insects (K-Fam-1-7)	203
48. Zoobenthos III—predation, production and reactions (K-Fpm-1-10)	207

IV. CONTRIBUTED PAPERS (POSTER LECTURES)

1. Regional limnology, eutrophication and pollution (553-Tpm-1-26)	212
2. Aquatic organisms, sediments and metals (553-Wpm-1-25)	225

V. AUTHOR INDEX	239
