7 PREFACE

9 INTRODUCTION

CHAPTER ONE

11 CHARTING THE GREEN PLANET

12 Plant Exploration

20 Plant Geography

21 Plant Ecology

CHAPTER TWO

25 TOOLS OF THE TRADE

26 The Identity and Relationships of Plant Species

26 Taxonomy and Systematics

29 Nomenclature

33 Floras

36 Genecology

39 Distribution of Plant Species

39 Chorology

39 Mapping

40 Vegetation and its Description

40 Plants in the Ecosystem

47 Structure of Vegetation

49 Physiognomy

59 Phytosociology

62 Fossil Plants and their Study

63 History of Paleobotany

63 Types of Fossil

66 Palynology

66 Dating

CHAPTER THREE

69 EVOLUTION OF THE GREEN PLANET

71 The Physical Background

71 The Geological Record

72 Mesozoic Environments and Continental Drift

77 Cenozoic Environments and Vegetation

83 The Evolutionary Background

84 The Origin and Early History of Life

89 Evolution and Natural Selection

95 Evolution and the Fossil Record

96 Adaptation

105 Speciation

108 Isolation

CHAPTER FOUR

113 ENVIRONMENTAL FACTORS

114 What is the Environment?

117 Physical Features of the Environment

117 Climate

129 Soils

139 Fire

140 Biotic Factors and the Environment

140 Tolerance and Plant Distribution

142 Dispersal and Migration

145 Colonization and Establishment

146 Competition

149 Succession

154 Zonation

CHAPTER FIVE

157 VEGETATION TODAY

158 Zonal Vegetation

159 Forest

166 Scrub

168 Desert

172 Tundra

177 Grassland

183 Mountain Vegetation

188 Azonal Vegetation

188 Heath

191 Wetlands

201 Coastal Vegetation

CHAPTER SIX

209 THE REALMS OF PLANTS

210 The World's Floras

210 Realms, Regions, Provinces

214 Some Floristic Divisions of the World

214 The Arctic Region

216 The Boreal Zone

218 The Antarctic Dominion

220 Distribution and Distribution Patterns

220 Centers of Origin, Diversity and Variability

221 Discontinuous Distributions

226 Restricted Distributions

231 Islands

CHAPTER SEVEN

237 MAN AND THE GREEN PLANET

238 Domestication of Plants

239 The Origins of Modern Crops

243 Crop Improvement and the Green Revolution

247 Plant Resources of the Future

248 Man's Impact on Particular Vegetation-types

248 Tundra

249 Forests

250 Grasslands

253 Pollution

259 Weeds and Aliens

264 Conservation

268 Genetic Resources of Plants

271 Gardens

273 Conservation Again

274 BIOGRAPHIES

278 GLOSSARY

282 SUBJECT INDEX

286 INDEX OF PLANT NAMES

288 BIBLIOGRAPHY
