

Contents in Brief

Index of Focus on Scientific Process Features vii
Contents in Detail ix
Preface xxv

I Studying the Living World 1

I The Sphere of Life 12

- 2 Origins: The Universe, Earth, and Life 14
- 3 Origins: Cells 36
- 4 Energy Transformation in Cells 58
- 5 The Diversity and Classification of Life: Kingdoms
Prokaryotae, Protocista, and Fungi 80
- 6 The Diversity and Classification of Life:
Kingdoms Plantae and Animalia 99

II The Interactions of Life 122

- 7 The Biosphere 124
- 8 World Biomes 140
- 9 Ecology 158
- 10 Terrestrial Ecosystems 176
- 11 Aquatic Ecosystems 195
- 12 Human Populations and the Environment 220
- 13 Global Climate Change 236

III The Language of Life 260

- 14 Foundations of Genetics 262
- 15 Cell Reproduction 276
- 16 Chromosomes and Heredity 294
- 17 The Birth of Modern Genetics 314
- 18 The Nature of Genetic Information 332
- 19 Human Genetics and Patterns of Normal Inheritance 354
- 20 Human Genetic Disorders 373
- 21 Biotechnology 394
- 22 Humans and Genetic Technologies 416

IV The Evolution of Life 438

- 23 Darwin and the Origin of the *Origin* 440
- 24 The Modern Synthesis: Genetics and Natural Selection 455
- 25 The Origin of Species 476
- 26 The Unfinished Synthesis 491
- 27 Human Evolution 513
- 28 Animal Behavior 527
- 29 Social Behavior 542

V Plant Systems of Life 556

- 30 Plants: Their Emergence from Seeds 558
- 31 Plant-Environment Relations 580
- 32 Plant Adaptations and Reproduction 595

VI Human Systems of Life 618

- 33 Cellular Diversity and Organization 620
- 34 The Integumentary, Skeletal, and Muscular Systems 636
- 35 The Respiratory, Circulatory, Digestive,
and Urinary Systems 656
- 36 Control and Regulation: The Nervous System 676
- 37 Control and Regulation: The Endocrine System 697
- 38 Human Reproduction and Development 714
- 39 Human Defense Systems 737
- 40 Human Diseases 763
- 41 Contemporary Research on Human Diseases 786
- 42 Biology in Future Decades 806

Appendixes

- A Chemistry A-1
- B Classification of Organisms: The Five Kingdoms,
Their Phyla, and One Genus of Each A-15
- Glossary G-1
- Credits C-1
- Index I-1
