

Contents

Section I

Introduction to Surrogate Tissue Analysis.....	1
--	---

Chapter 1 Introduction to Surrogate Tissue Analysis	3
--	---

John C. Rockett and Michael E. Burczynski

Section II

Genomic Approaches.....	13
-------------------------	----

Chapter 2 Impact of Sample Handling and Preparation on Gene Signatures as Exemplified for Transcriptome Analysis of Peripheral Blood... 15	15
--	----

Joachim L. Schultze, Svenja Debey, Raji Pillai, and Thomas Zander

Chapter 3 Blood Genomic Fingerprints of Brain Diseases	31
---	----

**Yang Tang, Donald L. Gilbert, Tracy A. Glauser, Andrew D. Hershey,
Aigang Lu, Ruiqiong Ran, Huichun Xu, and Frank R. Sharp**

Chapter 4 Transcriptional Profiling of Peripheral Blood in Oncology	47
--	----

Michael E. Burczynski

Chapter 5 Blood-Derived Transcriptomic Profiles as a Means to Monitor Levels of Toxicant Exposure and the Effects of Toxicants on Inaccessible Target Tissues.....	65
---	----

John C. Rockett

Chapter 6 Spermatozoal RNAs as Surrogate Markers of Paternal Exposure	77
---	----

G. Charles Ostermeier and Stephen A. Krawetz

Section III

Proteomic Approaches.....	91
---------------------------	----

Chapter 7 Proteomic Analysis of Surrogate Tissues: Mass Spectrometry- Based Profiling of the Circulatory Proteome for Cancer Detection and Stratification	93
--	----

**Emanuel F. Petricoin III, Katherine R. Calvo, Julia Wulfschlegel,
and Lance A. Liotta**

Chapter 8 Lymphocyte Integrins: Potential Surrogate Biomarkers for Evaluation of Endometrial Receptivity	109
--	-----

K.V.R. Reddy, S.M. Gupta, and P.K. Meherji

Chapter 9	Nipple Aspirate Fluid to Diagnose Breast Cancer and Monitor Response to Treatment	123
Edward Sauter		

Section IV	Metabolomics and Other Approaches.....	141
-------------------	--	-----

Chapter 10	Metabonomics: Metabolic Profiling and Pattern Recognition Analysis of Body Fluids and Tissues for Characterization of Drug Toxicity and Disease Diagnosis	143
Julian L. Griffin and Nigel J. Waters		

Chapter 11	Comprehensive Metabolomic Profiling of Serum and Cerebrospinal Fluid: Understanding Disease, Human Variability, and Toxicity	165
Shawn Ritchie		

Chapter 12	Lipidomic Analysis of Plasma and Tissues: Lipid-Derived Mediators of Inflammation and Markers of Disease	185
Clary B. Clish and Charles N. Serhan		

Chapter 13	Molecular Detection and Characterization of Circulating Tumor Cells and Micrometastases in Solid Tumors.....	203
Ronald A. Ghossein, Hikmat Al-Ahmadie, and Satyajit Bhattacharya		

Chapter 14	Methylation Profiling of Tumor Cells and Tumor DNA in Blood, Urine, and Body Fluids for Cancer Detection and Monitoring	229
Ivy H.N. Wong		

Section V	Future Considerations for Surrogate Tissue Profiling	247
------------------	--	-----

Chapter 15	Regulatory and Technical Challenges in Incorporating Surrogate Tissue Profiling Strategies into Clinical Development Programs.....	249
Judith L. Oestreicher, Monica J. Cahilly, Deborah P. Mounts, Maryann Z. Whitley, Lisa A. Speicher, William L. Trepicchio, and Michael E. Burczynski		

Chapter 16	Considerations in the Economic Assessment of the Value of Molecular Profiling.....	263
Sarah C. Stallings, Anthony J. Sinskey, and Stan N. Finkelstein		

Chapter 17	The Impact and Challenges of Pan-Omic Approaches in Pharmaceutical Discovery and Development.....	275
William D. Pennie, Jennifer L. Colangelo, and Michael P. Lawton		
Chapter 18	Current and Future Aspects of Surrogate Tissue Analysis	291
Michael E. Burczynski		
Index.....	SECTION I	299

Introduction to Surrogate Tissue Analysis
