
Table of Contents

Chapter 1

- Fluorescent Calcium Indicators Based on BAPTA1
Martin Poenie

Chapter 2

- Fluorescent Indicators — Facts and Artifacts51
Gary St. J. Bird and James W. Putney, Jr.

Chapter 3

- Fluorescence Microplate-Based Techniques for the
High-Throughput Assessment of Calcium Signaling:
The Highs and Lows for Calcium Researchers85
Gregory R. Monteith and Gary St. J. Bird

Chapter 4

- Genetically Encoded Fluorescent Calcium Indicator Proteins101
Atsushi Miyawaki, Takeharu Nagai, and Hideaki Mizuno

Chapter 5

- Targeted Aequorins113
Andrea Prandini and Rosario Rizutto

Chapter 6

- Electrophysiological Recordings of Ca^{2+} Currents125
Anant B. Parekh

Chapter 7

- Molecular Biology of Ca^{2+} Channels: Lessons from the TRP Superfamily147
*Veit Flockerzi, Thomas Aberle, Marcel Meissner, Christine Jung,
Stephan Philipp, and Ulrich Wissenbach*

Chapter 8

- Genetic and Molecular Characterization of Ca^{2+}
and IP_3 Signaling in the Nematode *Caenorhabditis elegans*161
Ana Y. Estevez and Kevin Strange

Chapter 9

- Calcium Signaling Networks in Yeast187
Kyle W. Cunningham

Chapter 10

- Nuclear Patch Clamp Electrophysiology of Inositol
Trisphosphate Receptor Ca^{2+} Release Channels203
*Don-On Daniel Mak, Carl White, Lucian Ionescu,
and J. Kevin Foskett*

Chapter 11

- Ryanodine Receptors231
Xander H.T. Wehrens, Stephan E. Lehnart, and Andrew R. Marks

Chapter 12

- Methods in Cyclic ADP-Ribose and NAADP Research265
*Anthony J. Morgan, Grant C. Churchill, Roser Masgrau,
Margarida Ruas, Lianne C. Davis, Richard A. Billington,
Sandip Patel, Michiko Yamasaki, Justyn M. Thomas,
Armando A. Genazzani, and Antony Galione*

Chapter 13

- Methods for Studying Calcium Pumps335
*Leonard Dode, Luc Raeymaekers, Ludwig Missiaen,
Bente Vilsen, Jens P. Andersen, and Frank Wuytack*

Chapter 14

- Measuring Single Cell and Subcellular Ca^{2+} Signals387
*Sandip Patel, Lawrence D. Gaspers, Nicola Pierobon,
Walson Metzger, and Andrew P. Thomas*

Chapter 15

- Subcellular Compartmentalization of Calcium Signaling417
*Nicholas J. Dolman, Michael C. Ashby, Myoung K. Park, Ole H. Petersen,
and Alexei V. Tepikin*

Chapter 16

Apoptosis	433
-----------------	-----

Clark W. Distelhorst

Chapter 17

Calcium Entry Channels and Drug Discovery.....455

Su Li, Anne Dodge, Chris T. Poll, and Martin Gosling

Index487
