
Table of Contents

Chapter 1	Adenosine Receptor Pharmacology.....	1
<i>Karl-Norbert Klotz</i>		
Chapter 2	Medicinal Chemistry of Adenosine A ₃ Receptors.....	15
<i>Kenneth A. Jacobson, Yong Chul Kim, Bhalchandra V. Joshi, and Zhan-Guo Gao</i>		
Chapter 3	The Role of CD73 in the Generation of Extracellular Adenosine for Adenosine Receptor Signaling	39
<i>Masahide Takedachi, Sean P. Colgan, and Linda F. Thompson</i>		
Chapter 4	Regulation of Monocyte/Macrophage Function by Adenosine Receptors.....	49
<i>György Haskó and Csaba Szabó</i>		
Chapter 5	Impaired Lymphocyte Activation in the Presence of Adenosine: Mechanisms and Physiologic Relevance	69
<i>Jonathan Blay and David W. Hoskin</i>		
Chapter 6	Adenosine and Neutrophil Functions	89
<i>Marc Pouliot</i>		
Chapter 7	Dendritic Cells Regulated by Nucleotides and Nucleosides	101
<i>Johannes Norgauer, Marco Idzko, Elisabeth Panther, Giampiero Girolimoni, and Mirjana Ziemer</i>		
Chapter 8	Adenosine and Endothelial Cell Function.....	109
<i>Igor Feoktistov and Italo Biaggioni</i>		
Chapter 9	Adenosine A _{2B} Receptor in the Intestinal Epithelia	131
<i>Shanthi V. Sitaraman, Vasantha Kolachala, and Pallavi Garg</i>		
Chapter 10	Adenosine, Adenosine Receptors, and the Regulation of Glial Cells in Neuronal Damage.....	145
<i>Gunnar Schulte, Elisabetta Daré, Katrin Färber, and Bertil B. Fredholm</i>		

Chapter 11 Adenosine Receptors, Wound Healing, and Angiogenesis	157
<i>Aneesh Sheth and Bruce Cronstein</i>	
Chapter 12 A _{2A} Adenosine Receptors and Ischemia Reperfusion Injury	165
<i>Courtney M. Lappas and Joel Linden</i>	
Chapter 13 Adenosine Signaling in Chronic Lung Disease	187
<i>Michael R. Blackburn</i>	
Chapter 14 Role of Adenosine in the Control of Inflammatory Events Associated with Acute and Chronic Neurodegenerative Disorders	213
<i>Jonathan D. Geiger, Lara Buscemi, and Julie A. Fotheringham</i>	
Chapter 15 Anti-Inflammatory and Cytoprotective Effects of Inosine	237
<i>Csaba Szabó, Domokos Geró, and György Haskó</i>	
Chapter 16 Adenosine and Infection	257
<i>Christopher Moore, Edward Martin, Gail Sullivan, Joel Linden, and W. Michael Scheld</i>	
Chapter 17 Regulation of Peripheral Inflammation by Spinal Adenosine	285
<i>Sanna Rosengren and Gary S. Firestein</i>	
Chapter 18 Adenosine, Tumors, and Immunity	299
<i>Prina Fishman, Sara Bar-Yehuda, and Lea Madi</i>	
Chapter 19 Adenosine in Atherosclerosis	313
<i>Allison B. Reiss</i>	
Chapter 20 Regulation of Macrophage-Dependent Angiogenesis by Adenosine and Toll-Like Receptors	325
<i>Samuel Joseph Leibovich</i>	
Index	347
