

Contents

Wetlands as habitats for soil organisms

Anneke Beylich and Ulfert Graefe

- Annelid coenoses of wetlands representing different
decomposer communities 1

Beate Keplin and Gabriele Broll

- Earthworm coenoses in wet grassland of Northwest-Germany.
Effects of restoration management on a Histosol and a Gleysol 11

David J. Russell, Hans Schick, and Dietrich Nährig

- Reactions of soil Collembolan communities to inundation
in floodplain ecosystems of the Upper Rhine Valley 35

Soil ecological processes in fens and floodplains

Claudia Erber, Peter Felix-Henningsen, Klaus Handke, Wolfgang Kundel, and Karl-Friedrich Schreiber

- Management of moist grassland in a fresh-water marsh
of the Weser river: effects on soil, vegetation, and fauna 71

Karsten Kalbitz, Holger Rupp, and Ralph Meissner

- N-, P- and DOC-dynamics in soil and groundwater
after restoration of intensively cultivated fens 99

Uwe Schleuß, Michael Trepel, Holger Wetzel, Claus-Georg Schimming, and Winfried Kluge

- Interaction between hydrology, pedology and vegetation
at three minerotrophic peatland ecosystems 117

Carbon and nitrogen dynamics in soils with different water regimes

Oliver Bens and Peter Felix-Henningsen

- Variability of decomposition and nitrogen turnover
in Scots pine ecosystems in Northwest-Germany
under the influence of groundwater lowering 133

Heinrich Höper

- Carbon and nitrogen mineralisation rates of fens in Germany
used for agriculture. A review 149

Reinhard Well, Jürgen Augustin, and Knut Meyer

- In situ* measurement of denitrification and N_2O production
in the saturated zone of three Eutric Histosols and a Mollic Gleysol 165

Trace gas emissions

Michael Sommer and Sabine Fiedler

- Methane emissions from wetland soils in Southwest-Germany 177

Luise Giani and Katja Dittrich

- Methane dynamics of saltmarsh soils built up from marine
and peat material at the German North Sea coast 197

Stephan Glatzel and Karl Stahr

- The greenhouse gas exchange of a pond margin in South Germany 215

**Wolfgang Merbach, Thomas Kalettka, Catrin Rudat,
and Jürgen Augustin**

- Trace gas emissions from riparian areas of small eutrophic
inland waters in Northeast-Germany 235
