Preface .....	v
Contributors .....	v
1 Downstream Processing in the Biotechnology Industry: An Overview <i>Manohar Kariyappur</i> .....	1
2 Microbial Cell Disruption by High-Pressure Homogenization <i>Anton P. J. Middelberg</i> .....	11
3 Protein Concentration and Buffer Exchange Using Ultrafiltration <i>Andrew L. Zydney and Ralf Kuriyel</i> .....	23
4 High-Performance Tangential Flow Filtration for Protein Separations <i>Andrew L. Zydney and Ralf Kuriyel</i> .....	39
5 Large-Scale Recovery of Protein Inclusion Bodies by Continuous Centrifugation <i>Anton P. J. Middelberg</i> .....	47
6 Application of Density Gradient Ultracentrifugation Using Zonal Rotors in the Large-Scale Purification of Bicomplexes <i>Mohamed A. Desai and Sandie P. Martin</i> .....	55
7 Application of Chromatography in the Downstream Processing of Biomolecules <i>Mohamed A. Desai, Mark Rayner, Elsie Burns, and Denville Birmingham</i> .....	73
8 Affinity Ligand Technology: Optimal Protein Separators for Downstream Processing <i>Ken Jones and Dev Baines</i> .....	85
9 Immunaffinity Adsorption in the Large-Scale Isolation of Biomolecules <i>Mohamed A. Desai</i> .....	105
10 Expanded Bed Adsorption in the Purification of Biomolecules <i>Aitor Lizarbe, Marie Hansen, Momen Olander, and Elias Zafrañas</i> .....	121
11 Application of r-PLC in the Purification of Biomolecules <i>Paul Bradley and Mohamed A. Desai</i> .....	141

12	Counterflow Chromatography of Proteins with Polymer Phase Systems Yoichiro Shibusawa, Kazuhito Matsuda, and Yoichiro Ito .....	161
13	Practical Aspects and Applications of Radial Flow Chromatography Denise M. Wallworth .....	173
14	Sterile Filtration and Virus Filtration Ralf Kuriyal and Andrew L. Zydney .....	185
15	Design and Interpretation of Viral Clearance Studies for Biopharmaceutical Products Allen J. Darling .....	199
16	Validation of Sterilizing Filters in the Biotechnology Industry Manohar Kalyanpur .....	211
	Index .....	227
