Preface	v
Contributors	ix
PART I. TOPICAL REVIEWS IN TRANSGENESIS	
1 Biomedical and Agricultural Applications of Animal Transgenesis <i>Jim McWhir</i>	3
PART II. TRANSGENESIS IN INVERTEBRATE AND LOWER VERTEBRATE SPECIES	
2 Gene Transfer in <i>Drosophila</i> <i>Mark J. O'Connor and William Chia</i>	27
PART III. TRANSGENESIS IN THE MOUSE: <i>OOCYTE INJECTION</i>	
3 Oocyte Injection in the Mouse <i>Gary A. J. Brown and Timothy J. Corbin</i>	39
PART IV. ALTERNATIVE ROUTES TO THE GERMLINE	
4 Adenoviral Infection <i>Tohru Tsukui and Yutaka Toyoda</i>	73
5 Retroviral Infection <i>Richard A. Bowen</i>	83
PART V. TRANSGENESIS IN THE MOUSE: <i>THE ES CELL ROUTE</i>	
6 In Vitro Isolation of Murine Embryonic Stem Cells <i>David Wells</i>	93
7 Production of Chimeras Derived from Murine Embryonic Stem Cells <i>David Wells</i>	127
8 Gene Targeting Strategies <i>David W. Melton</i>	151
9 Cre/ <i>loxP</i> Recombination System and Gene Targeting <i>Ralf Kühn and Raul M. Torres</i>	175

PART VI. CRYOPRESERVATION OF MOUSE LINES

- 10 Cryopreservation of Transgenic Mouse Lines
Jillian M. Shaw and Naomi Nakagata 207
- 11 Ovarian Tissue Transplantation and Cryopreservation:
*Application to Maintenance and Recovery
of Transgenic and Inbred Mouse Lines*
Jillian M. Shaw and A. O. Trounson 229

PART VII. TRANSGENESIS IN THE RAT

- 12 Transgenesis in the Rat
Linda J. Mullins, Gillian Brooker, and John J. Mullins 255

PART VIII. TRANSGENESIS IN DOMESTIC SPECIES

- 13 Generation of Transgenic Livestock by Pronuclear Injection
A. John Clark 273
- 14 Transgenic Sheep from Cultured Cells
Keith H. S. Campbell 289

PART IX. CHARACTERIZATION AND ANALYSIS OF TRANSGENIC STRAINS

- 15 Analysis of Transgenic Mice
Stefan Selbert and Dominic Rannie 305
- Index 343
