

TABLE OF CONTENTS

Foreword	v
Color Plates	xiii

1. Introduction: a brief history of the STATs and a glance at the future	1
James E. Darnell, Jr.	

SECTION I STAT PROTEINS AND THEIR REGULATORS

2. The STAT protein family	11
Markus H. Heim	
3. The Janus kinase protein family	27
Pipsa Saharinen and Olli Silvennoinen	
4. Structural bases of receptor-JAK-STAT interactions	43
Peter C. Heinrich, Iris Behrmann, Serge Haan, Heike M. Hermanns, Gerhard Müller-Newen and Fred Schaper	
5. SOCS proteins: negative regulators of the JAK/STAT pathway	55
Robyn Starr and Douglas J. Hilton	
6. The PIAS protein family and TC-PTP	75
Bin Liu and Ke Shuai	
7. Prime time for the <i>Drosophila</i> JAK/STAT pathway	87
Erika A. Bach and Norbert Perrimon	

- | | | |
|----|--|-----|
| 8. | The STAT proteins of <i>Dictyostelium</i>
Jeffrey G. Williams | 105 |
| 9. | JAK/STATs in zebrafish: conservation of JAK/STAT signaling in vertebrates
Andrew C. Oates and Leonard I. Zon | 123 |

SECTION II

MECHANISMS OF ACTIVATION OF AND TRANSCRIPTIONAL REGULATION BY STAT PROTEINS

- | | | |
|-----|--|-----|
| 10. | IFNs and STATs, an incestuous relationship
Christian Schindler and Li Song | 137 |
| 11. | Mechanisms and biological roles of STAT activation by the IL-6 family of cytokines
Daisuke Kamimura and Toshio Hirano | 155 |
| 12. | Growth hormone induced activation and regulation of JAK2 and STAT proteins
Jason H. Kurzer and Christin Carter-Su | 177 |
| 13. | G protein-coupled-receptor mediated STAT activation
José Miguel Rodríguez-Frade, Mario Mellado and Carlos Martínez-A. | 191 |
| 14. | Regulation of STATs by posttranslational modifications
Thomas Decker, Mathias Müller and Pavel Kovarik | 207 |
| 15. | Interactions of STATs with SRC family kinases
Corinne M. Silva, Julie L. Boerner and Sally J. Parsons | 223 |
| 16. | The role of phosphatases and reactive oxygen species in regulation of the JAK/STAT pathway
Andrew Larner and Michael David | 237 |

- | | | |
|-----|---|-----|
| 17. | Raft-STAT signaling and transcytoplasmic trafficking
Pravin B. Sehgal and Mehul Shah | 247 |
| 18. | Nuclear trafficking of STAT proteins
Kevin M. McBride and Nancy C. Reich | 269 |
| 19. | Interaction of STAT signals with other signaling pathways
Duane R. Wesemann and Gerald M. Fuller | 285 |
| 20. | Forward genetics in mammalian cells
Eugene S. Kandel and George R. Stark | 299 |
| 21. | X-ray crystal structure of STAT proteins and structure-activity relationships
Christoph W. Müller, Montserrat Soler-Lopez,
Christina Gewinner and Bernd Groner | 311 |
| 22. | STAT transcriptional activation mechanisms: communication with the basal transcriptional machinery
David E. Levy | 327 |
| 23. | STAT-dependent gene expression without tyrosine phosphorylation
Maitreyee Chatterjee-Kishore, Jinbo Yang and
George R. Stark | 343 |

SECTION III

BIOLOGICAL IMPACT OF STAT ACTIVATION

- | | | |
|-----|---|-----|
| 24. | JAK/STAT signaling: a tale of jeeps and trains
Ana P. Costa-Pereira, Birgit Strobl, Björn F. Lillemor,
Hayaatun Is'hare and Ian Kerr | 355 |
| 25. | Viruses and STAT proteins: co-evolution with the JAK-STAT pathway
Christina M. Ulane and Curt M. Horvath | 367 |

26.	STATs in immune responses to viral infections Christine A. Biron, Rachelle Salomon and Joan E. Durbin	381
27.	IFNγ receptor-STAT1 signaling and cancer immunoediting Ravindra Uppaluri, Gavin P. Dunn, Lloyd J. Old and Robert D. Schreiber	399
28.	STAT activation in T_H1/T_H2 differentiation Theresa L. Murphy and Kenneth M. Murphy	419
29.	Mechanisms and biological consequences of STAT signaling by cytokines that share the common cytokine receptor γ chain, γ_c Jian-Xin Lin and Warren J. Leonard	435
30.	STAT activation in the acute phase response Heinz Baumann	465
31.	STAT3 function <i>in vivo</i> Valeria Poli and Tonino Alonzi	493
32.	Tissue-specific function of STAT3 Kiyoshi Takeda and Shizuo Akira	513
33.	Role of STATs in the biological functions of growth hormone Peter E. Lobie and David J. Waxman	525
34.	STAT/SOCS family members in inflammation and diseases Akihiko Yoshimura, Ichiko Kinjyo, Kyoko Inagaki-Ohara and Toshikatsu Hanada	545
35.	Signal Transducers and Activators of Transcription in cytokine signaling James N. Ihle	559
36.	STAT signaling by erythropoietin Stefan N. Constantinescu and Virginie Moucadel	575

37.	STATs in cell mobility and polarity during morphogenetic movement	595
	Susumu Yamashita and Toshio Hirano	
38.	Negative regulators of STAT function in <i>Drosophila</i>	609
	Melissa A. Henriksen and Aurel Betz	
39.	Jak3 and the pathogenesis of severe combined immunodeficiency	623
	Fabio Candotti, Luigi Notarangelo, James A. Johnson, Daniel McVicar and John J. O'Shea	
40.	Constitutively active STATs and cellular transformation	637
	Tobias Dechow and Jacqueline Bromberg	
41.	STAT proteins as molecular targets for cancer therapy	645
	Ralf Buettner, Marcin Kortylewski, Drew Pardoll, Hua Yu and Richard Jove	
42.	STATs in the central nervous system	663
	Azad Bonni	
43.	STATs in the cardiovascular system	687
	Hisao Hirota, Hideo Yasukawa and Kenneth R. Chien	
44.	JAKs and STATs as biomarkers of disease	697
	Marisa Dolled-Filhart and David L. Rimm	
45.	Drug discovery approaches targeting the JAK/STAT pathway	721
	H. Martin Seidel and Jonathan Rosen	
	Author Index	743
	Subject Index	745
