
Table of Contents

SECTION I *Biofilms: Background, Significance, and Roles of Catheters and Indwelling Devices*

Chapter 1	
Microbial Biofilms	3
<i>Xiuping Jiang and John L. Pace</i>	
Chapter 2	
Economic Impact of Biofilms on Treatment Costs	21
<i>John G. Thomas, Isaiah Litton, and Harald Rinde</i>	
Chapter 3	
Biofilm-Related Indwelling Medical Device Infections	39
<i>Matthew K. Schinabeck and Mahmoud A. Ghannoum</i>	
Chapter 4	
Medical Device Composition and Biological Secretion Influences on Biofilm Formation	51
<i>Sean P. Gorman and David S. Jones</i>	

SECTION II *Biofilm-Forming Pathogens*

Chapter 5	
Role of Biofilms in Infections Caused by <i>Escherichia coli</i>	73
<i>Grégory Jubelin, Corinne Dorel, and Philippe Lejeune</i>	
Chapter 6	
<i>Staphylococcus aureus</i> Biofilms	81
<i>Julie M. Higashi and Paul M. Sullam</i>	

Chapter 7	
Coagulase-Negative Staphylococci	109
<i>Dietrich Mack, Matthias A. Horstkotte, Holger Rohde,</i> <i>and Johannes K.-M. Knobloch</i>	

Chapter 8	
<i>Pseudomonas aeruginosa</i> Biofilm Infections in Cystic Fibrosis	155
<i>Andrea Smiley and Daniel J. Hassett</i>	

Chapter 9	
<i>Candida</i>	171
<i>Stephen Hawser and Khalid Islam</i>	

SECTION III Emerging Issues, Assays, and Models

Chapter 10	
Current Perspectives on the Regulation of the <i>ica</i> Operon and Biofilm Formation in <i>Staphylococcus epidermidis</i>	187
<i>Paul D. Fey and Luke D. Handke</i>	

Chapter 11	
Cell-to-Cell Communication in Bacteria	205
<i>Kenneth D. Tucker and Luciano Passador</i>	

Chapter 12	
Persisters: Specialized Cells Responsible for Biofilm Tolerance to Antimicrobial Agents	241
<i>Kim Lewis, Amy L. Spoering, Niilo Kaldalu, Iris Keren, and Devang Shah</i>	

Chapter 13	
Minimal Biofilm Eradication Concentration (MBEC) Assay: Susceptibility Testing for Biofilms	257
<i>Howard Ceri, Merle E. Olson, Douglas W. Morck, and Douglas G. Storey</i>	

Chapter 14	
Environmental Cues Regulate Virulence and Biofilm Formation	271
<i>John L. Pace and Steven M. Frey</i>	

Chapter 15	
<i>In Vivo</i> Models for the Study of Biomaterial-Associated Infection by Biofilm-Forming Staphylococci	289
<i>Luke D. Handke and Mark E. Rupp</i>	

Chapter 16	
Host Response to Biofilms	305
<i>Susan Meier-Davis</i>	

SECTION IV Overview of Antiinfective Agents and Clinical Therapy

Chapter 17	
Pharmacodynamics and the Treatment of IMD-Related Infections	331
<i>Roger Finch and Sarah Gander</i>	

Chapter 18	
Protein Synthesis Inhibitors, Fluoroquinolones, and Rifampin for Biofilm Infections	353
<i>Steven L. Barriere</i>	

Chapter 19	
β -Lactams for the Treatment of Biofilm-Associated Infections	363
<i>Ingrid L. Dodge, Karen Joy Shaw, and Karen Bush</i>	

Chapter 20	
Glycopeptide Antibacterials and the Treatment of Biofilm-Related Infections	385
<i>John L. Pace, Roasaire Verna, and Jan Verhoef</i>	

Chapter 21	
Antibiotic Resistance in Biofilms	401
<i>Nafsika H. Georgopapadakou</i>	

Chapter 22	
Treatment Protocols for Infections of Vascular Catheters	409
<i>Russell E. Lewis and Issam I. Raad</i>	

Chapter 23	
Treatment Protocols for Bacterial Endocarditis and Infection of Electrophysiologic Cardiac Devices	427
<i>Martin E. Stryjewski and G. Ralph Corey</i>	

Chapter 24	
Treatment Protocol of Infections of Orthopedic Devices	449
<i>Vera Antonios, Elie Berbari, and Douglas Osmon</i>	

Index	479
