Table of Contents

Chapter 1
Magic-Angle Spinning Recoupling Techniques for Distance Determinations among Spin-1/2 Nuclei in Solid Peptides and Proteins 1
Chad M. Rienstra

Chapter 2
Spectral Assignment of (Membrane) Proteins under Magic-Angle Spinning 39
Marc Baldus

Chapter 3
Resonance Assignments and Secondary Structure Determination in Uniformly and Differentially Enriched Proteins and Protein Reassemblies by Magic-Angle Spinning Nuclear Magnetic Resonance Spectroscopy 57
Tatyana Polenova

Chapter 4
Torsion Angle Determination in Biological Solids by Solid-State Nuclear Magnetic Resonance 87
Mei Hong and Sungsool Wi

Chapter 5
Structural Studies of Peptides on Biomaterial Surfaces Using Double-Quantum Solid-State Nuclear Magnetic Resonance Spectroscopy 123
Gary P. Drobny, Patrick S. Stayton, Joanna R. Long, Elizabeth Louie, Tortny Karlsson, Jennifer M. Popham, Nathan A. Oyler, Peter V. Bower, and Wendy J. Shaw

Chapter 6
Sensitivity Enhancement by Inverse Detection in Solids 151
Kay Saalwächter and Ayyalusamy Ramamoorthy

Chapter 7
Uniaxial Motional Averaging of the Chemical Shift Anisotropy of Membrane Proteins in Bilayer Environments 177
Alexander A. Nevzorov, Anna A. De Angelis, Sang Ho Park, and Stanley J. Opella

Chapter 8
Nuclear Magnetic Resonance Structural Studies of the FXYD Family Membrane Proteins in Lipid Bilayers 191
Carla M. Franzin, Jinghua Yu, and Francesca M. Marassi

Chapter 9
Solid-State ^{19}F-Nuclear Magnetic Resonance Analysis of Membrane-Active Peptides 215
Anne S. Ulrich, Parvesh Wadhwani, Ulrich H.N. Dürr, Sergii Afonin, Ralf W. Glaser, Erik Strandberg, Pierre Tremouilhac, Carsten Sachse, Marina Berditchevskaia, and Stephan Grage

Chapter 10
Solid-State Nuclear Magnetic Resonance Spectroscopic Studies of Magnetically Aligned Phospholipid Bilayers 237
Gary A. Lorigan

Chapter 11
Computational Aspects of Biological Solid-State Nuclear Magnetic Resonance Spectroscopy 261
Niels Chr. Nielsen

Chapter 12
Chemical Shift Tensors of Nucleic Acids: Theory and Experiment 305
John Persons, Paolo Rossi, and Gerard S. Harbison

Chapter 13
Solid-State Nuclear Magnetic Resonance Studies of Alkali Metal Ions in Nucleic Acids and Related Systems 317
Gang Wu and Alan Wong

Index 345
