

Contents

1. Introductory Chapter	1
2. Bioenergetics	4
3. Structure and Function of the Plant Cell	18
4. The Plant Cell Wall	55
5. Photosynthesis	92
6. Respiration	162
7. Carbohydrate Biosynthesis	227
8. Lipid Metabolism	273
9. Nitrogen Fixation, Amino Acid Biosynthesis and Proteins	328
10. Purines, Pyrimidines, Nucleic Acids, Protein Synthesis	362
11. Terpenes and Terpenoids	400
12. Chlorophylls and Haems	465
13. The Alkaloids	480
14. Plant Phenolics	528
15. Phytohormones and Related Compounds	567
Appendix 1	627
Appendix 2	637
Index	643
