

Contents

1	Introduction	1
2	α -Amino acid synthesis	8
3	α -Amino protection	13
4	α -Carboxy protection	22
5	Peptide bond formation	25
6	Residue-specific considerations	42
7	Strategy and tactics	53
8	Solution peptide synthesis	60
9	Solid phase peptide synthesis	67
10	GFP, a <i>tour de force</i>	81
	APPENDIX A. Abbreviations and their use	85
	APPENDIX B. Further reading and general sources	89
	Index	90
