
Contents

Preface, vii

- 1 A History of Telomere Biology, 1
E.H. Blackburn
- 2 The Telomerase Ribonucleoprotein Particle, 21
G. Cristofari and J. Lingner
- 3 Telomerase Biochemistry and Biogenesis, 49
J.-L. Chen and C.W. Greider
- 4 Telomerase and Human Cancer, 81
J.W. Shay and W.E. Wright
- 5 Modeling Cancer and Aging in the
Telomerase-deficient Mouse, 109
K.-K. Wong, S. Chang, and R.A. DePinho
- 6 Telomerase Deficiency and Human Disease, 139
I. Dokal and T. Vulliamy
- 7 Telomerase-independent Maintenance
of Mammalian Telomeres, 163
A.A. Neumann and R.R. Reddel
- 8 Telomerase-independent Telomere Maintenance in Yeast, 199
M.J. McEachern and J.E. Haber
- 9 Meiotic Telomeres, 225
H. Scherthan
- 10 Telomere Position Effect: Silencing Near the End, 261
M.A. Mondoux and V.A. Zakian

- 11 The Structural Biology of Telomeres, 317
D. Rhodes
- 12 Budding Yeast Telomeres, 345
V. Lundblad
- 13 Mammalian Telomeres, 387
T. de Lange
- 14 *Drosophila* Telomeres, 433
S. Pimpinelli
- 15 Ciliate Telomeres, 465
C. Price
- 16 Fission Yeast Telomeres, 495
J.P. Cooper and Y. Hiraoka
- 17 Plant Telomeres, 525
D.E. Shippen
- Appendix: A Personal Account of the Discovery of Telomerase, 551
E.H. Blackburn
- Index, 565
