Preface, vii

Preface to Paperback Edition, x

## SUPPLEMENTS

- 2S Taxonomy of Retroviruses, 1**  
*Natalie Teich*
- 4S Genome Structure, 17**  
*John Coffin*
- 5S Replication of Retroviruses, 75**  
*Harold Varmus and Ronald Swanstrom*
- 6S Protein Biosynthesis and Assembly, 135**  
*Clive Dickson, Robert Eisenman, and Hung Fan*
- 7S Genetics of Retroviruses, 147**  
*Maxine Linial and Donald Blair*
- 8S Pathogenesis of Retrovirus-induced Disease, 187**  
*Natalie Teich, John Wyke, and Paul Kaplan*
- 9S Functions and Origins of Retroviral Transforming Genes, 249**  
*J. Michael Bishop and Harold Varmus*
- 10S Endogenous Viruses, 357**  
*Jonathan Stoye and John Coffin*
- 11S Human T-cell Retroviruses, 405**  
*Robin Weiss*

## CHAPTER

- 12 Human Oncogenes, 487**  
*Chris Marshall*

## APPENDIXES

*Assembled by Charles Van Beveren, John Coffin, and  
Stephen Hughes*

- A Nomenclature, 559**
- B Nucleotide Sequences Complemented with  
Functional and Structural Analysis, 567**
- C Restriction Analysis of Two Genomes and  
Restriction Maps of Representative Retroviral  
Provirus and Cellular Oncogenes, 1149**
- D tRNA Primers, 1205**
- E Amino Acid Sequences of Retroviral Structural  
Proteins, 1209**

Index, 1223

## *Contents of companion volume*

### **1 / Text**

- 1 Origins of Contemporary RNA Tumor Virus Research
- 2 Taxonomy of Retroviruses, *Natalie Teich*
- 3 Experimental Biology and Assay of RNA Tumor Viruses, *Robin Weiss*
- 4 Structure of the Retroviral Genome, *John Coffin*
- 5 Replication of Retroviruses, *Harold Varmus and Ronald Swanstrom*
- 6 Protein Biochemistry and Assembly, *Clive Dickson, Robert Eisenman,  
Hung Fan, Eric Hunter, and Natalie Teich*
- 7 Genetics of Retroviruses, *Maxine Linial and Donald Blair*
- 8 Pathogenesis of Retrovirus-induced Disease, *Natalie Teich, John Wyke,  
Tak Mak, Alan Bernstein, and William Hardy*
- 9 Functions and Origins of Retroviral Transforming Genes, *J. Michael  
Bishop and Harold Varmus*
- 10 Endogenous Viruses, *John Coffin*
- 11 Human T-cell Retroviruses, *Robin Weiss*
