
Contents

Preface, ii

Acknowledgments, iv

- Chapter 1** Introduction, 1
- *Chapter 2** Morphology of *Xenopus* Embryos and Adults, 13
- Chapter 3** Manipulating Gene Expression in *Xenopus*, 39
- Chapter 4** Equipment for Embryo Experiments, 81
- Chapter 5** Obtaining Embryos, 91
- Chapter 6** Preparing Embryos for Manipulation, 103
- Chapter 7** Embryo Perturbations, 107
- Chapter 8** Microinjection, 125
- *Chapter 9** Fate Mapping and Lineage Labeling, 143
- Chapter 10** Microdissection, 171
- Chapter 11** Transgenesis in *Xenopus* Embryos, 199
- Chapter 12** Immunocytochemistry, 231
- Chapter 13** Whole-mount In situ Hybridization, 249
- Chapter 14** Histology, 275
- Appendix 1** Culture Media and Solutions, 283
- Appendix 2** Timing of Development of *Xenopus laevis* Embryos and Temperature Dependence, 299
- Appendix 3** Nucleic Acid Methods, 301
- Appendix 4** Cautions, 313
- Appendix 5** Suppliers, 323
- Appendix 6** Trademarks, 325

Index, 327

**For color art in Chapters 2 and 9, see Color Plates between pages 102 and 103.*
