

# Brief Contents

|            |                                                                     |     |            |                                                             |     |
|------------|---------------------------------------------------------------------|-----|------------|-------------------------------------------------------------|-----|
| CHAPTER 1  | The Main Themes of Microbiology                                     | 1   | CHAPTER 14 | Nonspecific Host Defenses                                   | 419 |
| CHAPTER 2  | The Chemistry of Biology                                            | 27  | CHAPTER 15 | Adaptive, Specific Immunity and Immunization                | 447 |
| CHAPTER 3  | Tools of the Laboratory: The Methods for Studying Microorganisms    | 59  | CHAPTER 16 | Disorders in Immunity                                       | 481 |
| CHAPTER 4  | An Introduction to Cell and Prokaryotic Cell Structure and Function | 89  | CHAPTER 17 | Diagnosing Infections                                       | 513 |
| CHAPTER 5  | Eucaryotic Cells and Microorganisms                                 | 123 | CHAPTER 18 | The Cocci of Medical Importance                             | 535 |
| CHAPTER 6  | An Introduction to the Viruses                                      | 159 | CHAPTER 19 | The Gram-Positive Bacilli of Medical Importance             | 567 |
| CHAPTER 7  | Elements of Microbial Nutrition, Ecology, and Growth                | 187 | CHAPTER 20 | The Gram-Negative Bacilli of Medical Importance             | 597 |
| CHAPTER 8  | Microbial Metabolism                                                | 219 | CHAPTER 21 | Miscellaneous Bacterial Agents of Disease                   | 625 |
| CHAPTER 9  | Microbial Genetics                                                  | 255 | CHAPTER 22 | The Fungi of Medical Importance                             | 661 |
| CHAPTER 10 | Genetic Engineering                                                 | 291 | CHAPTER 23 | The Parasites of Medical Importance                         | 693 |
| CHAPTER 11 | Physical and Chemical Agents for Microbial Control                  | 315 | CHAPTER 24 | Introduction to Viruses That Infect Humans: The DNA Viruses | 729 |
| CHAPTER 12 | Drugs, Microbes, Host—The Elements of Chemotherapy                  | 345 | CHAPTER 25 | The RNA Viruses That Infect Humans                          | 753 |
| CHAPTER 13 | Microbe–Human Interactions                                          | 381 | CHAPTER 26 | Environmental and Applied Microbiology                      | 791 |
