

CONTENTS

Preface	vii
List of Contributors	ix
1 Insect Homeotic Complex Genes and Development, Lessons from <i>Drosophila</i> and Beyond L K ROBERTSON and J W MAHAFFEY	1
2 <i>Drosophila</i> Limb Development U WEIHE, M MILÁN, and S M COHEN	59
3 Early Embryonic Development: Neurogenesis (CNS) L SOUSTELLE and A GIANGRANDE	97
4 Hormonal Control of the Form and Function of the Nervous System J W TRUMAN	133
5 Programmed Cell Death in Insect Neuromuscular Systems during Metamorphosis S E FAHRBACH, J R NAMBU, and L M SCHWARTZ	163
6 Prothoracicotropic Hormone R RYBCZYNSKI	197
7 The Ecdysteroid Receptor V C HENRICH	261
8 The Juvenile Hormones W G GOODMAN and N A GRANGER	305
9 Circadian Organization of the Endocrine System X VAFOPOULOU and C G H STEEL	395
10 Transposable Elements for Insect Transformation A M HANDLER and D A O'BROCHTA	459
11 Chitin Metabolism in Insects K J KRAMER and S MUTHUKRISHNAN	497
12 Cuticular Proteins J H WILLIS, V A ICONOMIDOU, R F SMITH, and S J HAMODRAKAS	531
13 Insect Cytochrome P450 R FEYEREISEN	563
14 Insect G Protein-Coupled Receptors: Recent Discoveries and Implications Y PARK and M E ADAMS	641

15	Insect Transformation for Use in Control	671
	P W ATKINSON, D A O'BROCHTA, and A S ROBINSON	
16	Insect Growth- and Development-Disrupting Insecticides	679
	T S DHADIALLA, A RETNAKARAN, and G SMAGGHE	
	Subject Index	741
