Part I. Photoperiodism in Plants and Fungi

Overview 3

David E. Somers

1. Photoperiodic Flowering in the Long-Day Plant *Arabidopsis thaliana* 9
Joanna Putterill, Christine Stockum, and Guy Warman
2. Photoperiodic Control of Flowering in the Short-Day Plant *Oryza sativa* 38
Takeshi Izawa
3. The Photoperiodic Flowering Response in *Pharbitis nil* 59
Ryosuke Hayama
4. Photoperiodic Control of Flowering in *Lemna* 74
Kumiko Ito-Miwa and Tokitaka Oyama
5. Photoperiodic Control of Dormancy and Flowering in Trees 88
Pekka Heino, Ove Nilsson, and Tapio Palva
6. Integration of Photoperiodic Timing and Vernalization in *Arabidopsis* 107
Scott D. Michaels
7. Seasonality and Photoperiodism in Fungi 134
Till Roenneberg, Tanja Radic, Manfred Gödel, and Martha Merrow

Part II. Photoperiodism in Invertebrates

Overview 165

David L. Denlinger

8. Photoperiodism in Mollusks 173
Hideharu Numata and Hiroko Udaka
9. Photoperiodism in Copepods 193
Nancy H. Marcus and Lindsay P. Scheef
10. Photoperiodism in Insects:
Migration and Diapause Responses 218
David S. Saunders
11. Photoperiodism in Insects: Perception of Light
and the Role of Clock Genes 258
Shin S. Goto, Sakiko Shiga, and Hideharu Numata
12. Photoperiodism in Insects: Molecular Basis and
Consequences of Diapause 287
Karen D. Williams, Paul S. Schmidt, and Marla B. Sokolowski
13. Photoperiodism in Insects: Effects on Morphology 318
H. Frederik Nijhout
14. Photoperiodism in Insects: Aphid Polyphenism 342
Jim Hardie

Part III. Photoperiodism in Vertebrates

Overview 365

Randy J. Nelson

15. Photoperiodism in Fishes 371
Bertil Borg
16. Photoperiodism in Amphibians and Reptiles 399
Zachary M. Weil and David Crews
17. Photoperiodism and Reproduction in Birds 420
George E. Bentley
18. Genetic and Molecular Mechanisms
of Avian Photoperiodism 446
Takashi Yoshimura and Peter J. Sharp
19. Photoperiodism in Mammals: Regulation of
Nonreproductive Traits 461
Gregory E. Demas, Zachary M. Weil, and Randy J. Nelson
20. Photoperiodism and Reproduction in Mammals 503
Lance J. Kriegsfeld and Eric L. Bittman
21. Genetic and Molecular Mechanisms
of Mammalian Photoperiodism 543
David Hazlerigg
- Epilogue: Future Directions 561
David L. Denlinger, David E. Somers, and Randy J. Nelson
- Index 567
