<i>Preface</i>	page ix
<i>Acknowledgments</i>	xii
<i>List of Contributors</i>	xiii

Part I. Global Change and the Patterns of Impoverishment

1	The Earth under Stress: A Transition to Climatic Instability Raises Questions about Patterns of Impoverishment <i>George M. Woodwell</i>	3
2	The Experimental Impoverishment of Natural Communities: Effects of Ionizing Radiation on Plant Communities, 1961–1976 <i>George M. Woodwell and Richard A. Houghton</i>	9
3	Air Pollution and Temperate Forests: Creeping Degradation <i>F. Herbert Bormann</i>	25
4	The Long-Term Effects of Air Pollutants on Lichen Communities in Europe and North America <i>D. L. Hawksworth</i>	45
5	Biotic Impoverishment in Northern Peatlands <i>Eville Gorham</i>	65
6	Climatic Change and the Survival of Forest Species <i>Margaret Bryan Davis</i>	99
7	The Atmosphere and the Future of the Biosphere: Points of Interactive Disturbance <i>Michael Oppenheimer</i>	111

Part II. Chronic Disturbance and Natural Ecosystems: Forests

8	The Restoration of Nonsuch Island as a Living Museum of Bermuda's Precolonial Terrestrial Biome <i>David B. Wingate</i>	133
---	--	-----

vi	<i>Contents</i>	
9	Patterns of Impoverishment in Natural Communities: Case History Studies in Forest Ecosystems – New Zealand <i>A. F. Mark and G. D. McSweeney</i>	151
10	Changes in the Eucalypt Forests of Australia as a Result of Human Disturbance <i>R. L. Specht</i>	177
11	Impoverishment in Pacific Island Forests <i>Dieter Mueller-Dombois</i>	199
12	Deforestation in Brazilian Amazonia <i>Philip M. Fearnside</i>	211
13	Incentives for Sustainable Forest Management <i>Robert Repetto</i>	239

Part III. Chronic Disturbance and Natural Ecosystems: Woodlands, Grasslands, and Tundra

14	Changes in the Mediterranean Vegetation of Israel in Response to Human Habitation and Land Use <i>Zev Naveh and Pua Kutiel</i>	259
15	<i>Bromus tectorum</i> , a Biotic Cause of Ecosystem Impoverishment in the Great Basin <i>W. D. Billings</i>	301
16	Detecting Early Signs of Regional Air-Pollution Injury to Coastal Sage Scrub <i>Walter E. Westman</i>	323
17	Arctic Ecosystems: Patterns of Change in Response to Disturbance <i>L. C. Bliss</i>	347

Part IV. Chronic Disturbance and Natural Ecosystems: Aquatic and Emergent Ecosystems

A. Marine Systems

18	Changes in a Red Sea Coral Community Structure: A Long-Term Case History Study <i>Y. Loya</i>	369
19	Are Deep-Sea Communities Resilient? <i>J. Frederick Grassle, Nancy J. Maciolek, and James A. Blake</i>	385
20	Species Dominance–Diversity Patterns in Oceanic Communities <i>John A. McGowan</i>	395

B. Freshwater Systems

- | | | |
|----|--|-----|
| 21 | Natural and Anthropogenically Imposed Limitations to Biotic Richness in Fresh Waters | 425 |
| | <i>David W. Schindler</i> | |
| 22 | Human Impacts on the South Florida Wetlands: The Everglades and Big Cypress Swamp | 463 |
| | <i>William A. Niering</i> | |
| 23 | The Impoverishment of Aquatic Communities by Smelter Activities near Sudbury, Canada | 477 |
| | <i>N. D. Yan and P. M. Welbourn</i> | |
| 24 | Biotic Impoverishment: Effects of Anthropogenic Stress | 495 |
| | <i>John Cairns, Jr., and James R. Pratt</i> | |

Part V. Conclusion: Steps toward a World That Runs Itself

- | | | |
|----------------------|-----------------------------|-----|
| 25 | Steps toward Sustainability | 509 |
| | <i>J. Gustave Speth</i> | |
| 26 | A Reaction from a Multitude | 513 |
| | <i>Donella H. Meadows</i> | |
| <i>Name Index</i> | | 522 |
| <i>Subject Index</i> | | 523 |
