

Contents

	Preface	v
	To the Student	ix
	Laboratory Supplies and Procedures	ix
EXERCISE 1	The Scientific Method	1
EXERCISE 2	Measurement	13
EXERCISE 3	Microscopy	25
EXERCISE 4	Homeostasis	45
EXERCISE 5	Macromolecules and You: Food and Diet Analysis	55
EXERCISE 6	Structure and Function of Living Cells	71
EXERCISE 7	Diffusion, Osmosis, and the Functional Significance of Biological Membranes	89
EXERCISE 8	Enzymes: Catalysts of Life	103
EXERCISE 9	Photosynthesis: Capture of Light Energy	117
EXERCISE 10	Respiration: Energy Conversion	131
EXERCISE 11	Mitosis and Cytokinesis: Nuclear and Cytoplasmic Division	143
EXERCISE 12	Meiosis: Basis of Sexual Reproduction	157
EXERCISE 13	Heredity	179
EXERCISE 14	Nucleic Acids: Blueprints for Life	195
EXERCISE 15	Biotechnology: Bacterial Transformation	209
EXERCISE 16	Evolutionary Agents	219
EXERCISE 17	Evidences of Evolution	231
EXERCISE 18	Taxonomy: Classifying and Naming Organisms	245
EXERCISE 19	Bacteria and Protists I	265
EXERCISE 20	Protists II	283
EXERCISE 21	Fungi	299
EXERCISE 22	Bryophytes—Liverworts and Mosses	323
EXERCISE 23	Seedless Vascular Plants: Club Mosses and Ferns	341
EXERCISE 24	Seed Plants I: Gymnosperms	357

EXERCISE 25	Seed Plants II: Angiosperms	369
EXERCISE 26	Sponges and Cnidarians	397
EXERCISE 27	Flatworms and Rotifers	421
EXERCISE 28	Segmented Worms and Mollusks	435
EXERCISE 29	Roundworms and Joint-Legged Animals	451
EXERCISE 30	Echinoderms and Invertebrate Chordates	469
EXERCISE 31	Vertebrates	481
EXERCISE 32	Plant Organization: Vegetative Organs of Flowering Plants	503
EXERCISE 33	Animal Organization	523
EXERCISE 34	Dissection of the Fetal Pig: Introduction, External Anatomy, and the Muscular System	551
EXERCISE 35	Dissection of the Fetal Pig: Digestive, Respiratory, and Circulatory Systems	565
EXERCISE 36	Dissection of the Fetal Pig: Urogenital and Nervous Systems	585
EXERCISE 37	Human Sensations, Reflexes, and Reactions	597
EXERCISE 38	Structure and Function of the Sensory Organs	609
EXERCISE 39	Human Skeletal and Muscular Systems	625
EXERCISE 40	Human Blood and Circulation	643
EXERCISE 41	Human Respiration	661
EXERCISE 42	Animal Development: Gametogenesis and Fertilization	675
EXERCISE 43	Animal Development: Cleavage, Gastrulation, and Late Development	687
EXERCISE 44	The Natural Arsenal: An Experimental Study of the Relationships Between Plants and Animals	703
EXERCISE 45	Ecology: Living Organisms in Their Environment	713
EXERCISE 46	Human Impact on the Environment: Stream Ecology	725
EXERCISE 47	Animal Behavior	741
APPENDIX 1	Measurement Conversions	751
APPENDIX 2	Genetics Problems	752
APPENDIX 3	Terms of Orientation in and Around the Animal Body	756
	Illustration references	757
